3. Enter a meeting/appointment title, then click on *More Details*

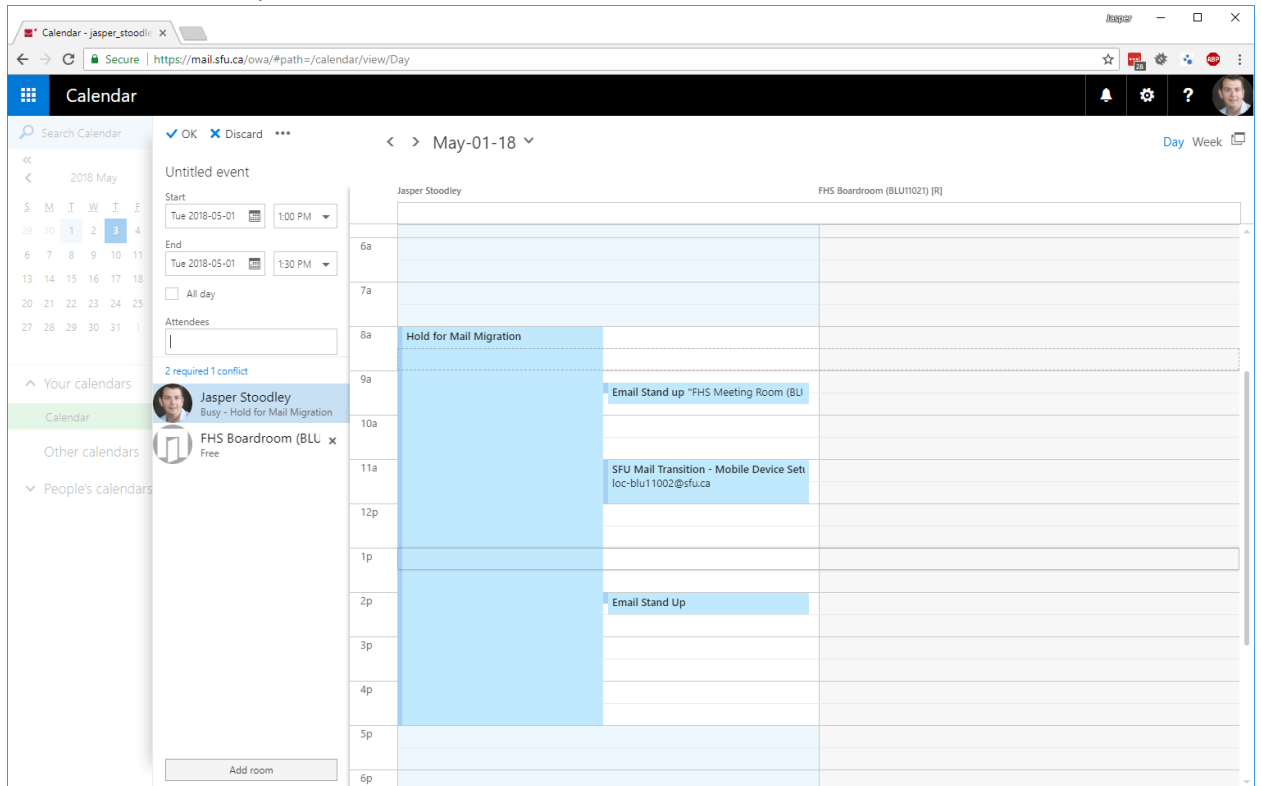

4. Click on *Scheduling assistant* (upper-right, near *People*)

5. In the *Attendees* field, type *loc-blu*, then select *Search Directory*

Editing/managing meeting room calendar entries

Administrative staff in the Dean's Office and Programs areas have the ability to manage room calendars directly, including booking directly into the room's calendar and modifying existing meetings/appointments. To book directly in a room calendar, do the following:

1. Ensure you have completed the steps listed above under 'Viewing a meeting room calendar'
2. Adjust your calendar view by toggling off all calendars except the meeting room you wish to book

- Click on the desired date/time in the timetable grid and complete the booking details as needed, then save. The meeting/appointment should appear in the room calendar.

The screenshot displays a web-based calendar application. The browser address bar shows the URL: `https://mail.sfu.ca/owa/#path=/calendar/view/Week`. The calendar interface includes a navigation pane on the left with sections for "Your calendars", "Other calendars", and "People's calendars". The "FHS Boardroom (BLU)" calendar is selected. The main area shows a weekly view for the week of April 29 to May 5, 2018. A time slot for 12:00 PM on Friday, May 4th, is highlighted. A modal dialog box titled "May-01-18" is open over this slot, containing a text input field, a location field labeled "Add a location", time selection dropdowns (currently set to 12:00 PM and 12:30 PM), an "All day" checkbox, and "Save" and "More details" buttons. Two existing meeting entries are visible: "Policy and Systems RCA meeting" and "UGSC Working Group meeting", both in the FHS Boardroom (BLU11021) on Friday, May 4th.
