

Lectures are sponsored by the BOMBARDIER FOUNDATION and the Active Transport Lab at the University of British Columbia.

Shifting Gears

FOUR DISCUSSIONS ON THE FUTURE OF TRANSPORTATION

Admission is free but seating is extremely limited and reservations are required. To reserve, email cstudies@sfu.ca or call 778-782-5100.

View videos of previous lectures at www.sfu.ca/city including: **Are Today's Transportation Agencies Ready for Tomorrow's Challenges?** with Michael Meyer, Director of Georgia Transportation Institute.

Transportation Strategies for Healthier Communities

Wednesday, March 19, 7 pm

Speaker Dr. James Sallis, Professor of Psychology, San Diego State University; Director, Active Living Research

Moderated by Larry Frank, Bombardier Chair, UBC School of Community and Regional Planning.

Venue SFU at Harbour Centre, 515 West Hastings Street, Vancouver

The automobile may be close to our heart, but unfortunately that heart has become a lot less healthy as a result. Dr. James Sallis does "Active Living Research," making the connection between how we move and our physical health. Whether dealing with childhood obesity or independent living for seniors, Dr. Sallis will show how a balanced transportation and transit system is critical for our quality of life. See Dr. Sallis's biography at www.drjamesallis.sdsu.edu.

Panelists include Don Hunter, Manager for the Built Environment/Active Transportation Initiative (BEAT), BC Recreation and Parks Association; Domenic Losito, Regional Director Health Protection, Vancouver Coastal Health.

The Market for Walkable Urban Development

Friday, April 25, 7 pm

Speaker Christopher B. Leinberger, Metropolitan Land Strategist and Developer, The Brookings Institution, Washington DC

Venue Segal Graduate School of Business, SFU Vancouver, 500 Granville Street, Vancouver

A more walkable and transit-friendly community may be all very fine in theory — but will it sell? Chris Leinberger, an experienced developer and real-estate professional, is convinced it will. And he will show us the how, the why, and what it looks like.

Panelists include Jim Cox, President, VanCity Enterprises; Blake Hudema, Vice President - Pacific Region, Genstar Development Company

Our Transportation Future

Thursday, May 22, 7 pm

Moderated by Larry Frank, Bombardier Chair, UBC School of Community and Regional Planning.

Venue SFU at Harbour Centre, 515 West Hastings Street, Vancouver

Panelists include Professor Anthony Perl, Director, Urban Studies Program, SFU and Nancy Olewiler, Professor, Department of Economics and Director, Graduate Public Policy Program, SFU; and others.

Lectures are sponsored by the Bombardier Foundation and the Active Transport Lab at the University of British Columbia. Program partner: Simon Fraser University City Program.
