ARCH 479-3 Directed Readings (3 credits)
Directed readings for students who desire to study selected topics in depth. Prerequisite: permission of the department.

ARCH 480 Directed Laboratory/Library/Field Research (3-6 credits)
A course in which students can undertake specific laboratory, library or field-based research supervised by a faculty member. Prerequisite: permission of the department.

PROCEDURE FOR REGISTRATION:

1. The student identifies a member of the faculty who has expertise in the proposed area of study and receives preliminary approval for their supervision.
2. The student submits an initial proposal to the faculty member and then discusses the proposal to confirm the academic quality of the Directed Study.
3. The student and the faculty member reach agreement and draft a final proposal, which must include the faculty supervisor's signature. (See attached template)
4. The student submits the signed proposal to the Undergraduate Advisor for Department approval. Proposals will be accepted one month before the start of the semester and up to the end of the second week of classes in the relevant semester.
5. Upon approval, the student will be registered for the Directed Study course by the Undergraduate Advisor.
