Department of Chemistry
Fall 2017 Seminars

All faculty, staff, post-doctoral fellows, graduate, and undergraduate students are encouraged to attend.

For further information, please contact:
Prof. Jeff Warren
Tel: 778.782.9552
Email: j.warren@sfu.ca

September 20
Hosted by: Andrew Bennet
RCB 8100
Speaker: Prof. Jennifer Prescher
University of California at Irvine
Expanding the imaging toolkit to spy on cellular communication

September 27
Hosted by: Roger Linnington
RCB 8100
Speaker: Prof. Katherine Ryan
University of British Columbia
Building natural products: pathways, enzymes, and cofactors

October 5*
Hosted by: Daniel Leznoff
SSC 9001
Speaker: Prof. Mary Anne White
Dalhousie University
Thermodynamics of Materials: From Fundamentals to Applications

October 11
Hosted by: Rob Britton
RCB 8100
Speaker: Prof. Darren Derksen
University of Calgary
Targeting Protein Function Using Structure-Activity Relationship (SAR) Studies and Proteolysis-Targeting Chimeras (PROTACs) – Organic Synthesis is the Key

October 17*
Hosted by: Tim Storr
Saywell 10041
1:30-2:20PM
Speaker: Prof. Seth Brown
University of Notre Dame
Metal-Ligand Interplay in Complexes with Redox-Active Ligands

October 26*
Hosted by: Charles Walsby
SSC 9001
Speaker: Chris Orvig
University of British Columbia
Inorganic Radiopharmaceutical Chemistry

November 1
Hosted by: Bingyun Sun
RCB 8100
Speaker: Prof. Leonard Foster
University of British Columbia
Exploring inter-tissue interactome differences using PCP-SILAC

November 8
Hosted by: Hogan Yu
RCB 8100
Speaker: Prof. Tao Ye
University of California at Merced
Single molecule chemistry for enabling complex supramolecular DNA surface architectures

November 16*
Hosted by: Jeff Warren
SSC 9001
Speaker: Prof. Xavier Roy
Columbia University
Molecular Clusters: Building Blocks for Nanoelectronics and Material Design

November 22
Hosted by: Graduate Caucus
RCB 8100
Speaker: Prof. Stephen Hashmi
University of Heidelberg
Gold Catalysis: Functionalized Carbenes, Gold Vinylidenes and Gold(III) Intermediates

November 29
Hosted by: Loren Kaake
RCB 8100
Speaker: Prof. Sara Eisler
University of New Brunswick
TBD

December 6
Hosted by: Jeff Warren
TBD
Speaker: Prof. David Sivak
Simon Fraser University
Design principles of biomolecular energy transduction

Lectures are held at 3:30 PM
