Faculty

For these courses, students need to figure out a topic related to the appropriate area of CMNS, and find a professor to supervise and grade their work (usually one medium-length research paper). Some professors allow “groups” of one student; others require 3-4 (or more) students to work together. There is a project group form available on the CMNS website* to be completed (by EACH student in a project group course) and signed by the student and the instructor before you submit it to a CMNS Advisor for registration.

…../over
**Directed Study Courses:** CMNS 479-1, CMNS 480-2, CMNS 481-3, CMNS 482-4, CMNS 483-5
Each of the above courses requires a CMNS form submitted to a CMNS Advisor for registration. Forms are available outside the General Office (K9671), and on the CMNS website (http://www.sfu.ca/communication/undergraduate/checklists-and-forms.html). These courses must be supervised by a faculty member in CMNS. Students are responsible for obtaining faculty member consent.

**Field Placement Courses:** CMNS 461-3, CMNS 489-4
Each of the above courses requires a CMNS form submitted to a CMNS Advisor prior to registration. Forms are available outside the General Office (K9671), and on the CMNS website (http://www.sfu.ca/communication/undergraduate/checklists-and-forms.html). These courses must be supervised by a faculty member in CMNS. Students are responsible for obtaining faculty member consent.

**Honours:** Students must apply for admission to the CMNS Honours Program by approx. 15 July 2019 with the CMNS Honours Co-ordinator, Mr. Chris Jeschelnik (cjeschel@sfu.ca), and a CMNS Undergrad Advisor (cmns3@sfu.ca).

**Option A:** take both CMNS 497-5 “Honours Research Proposal” & CMNS 498-10 “Honours Research Project”.
Students who have completed (or almost completed) CMNS 497-5 must inform a CMNS Undergrad Advisor when they wish to be registered in CMNS 498-10 - it’s NOT an automatic process (cmns3@sfu.ca).

CMNS 497-5 forms are at (http://www.sfu.ca/communication/undergraduate/checklists-and-forms.html). Students are responsible for obtaining faculty member(s) consent.

**Note:** Students must obtain a minimum grade of “B” in CMNS 497 in order to take CMNS 498 and continue in Honours Option A.

**Option B:** take 4 additional 400-level courses in CMNS (16 extra Upper Division units minimum).

**Note:** At graduation time, honours students must have CGPA’s of 3.00 or higher - overall and within CMNS (cumulative and at the upper division).

**Co-op Education:** CMNS 395, CMNS 396, CMNS 494, CMNS 495, CMNS 496
(Please note that Co-op units are “additive” to the BA degree. They are NOT part of the overall 120 units total, or 44 Upper Division units total, required by SFU for an undergraduate degree.)

**For further information about the Co-op Program in Communication, contact:**
