Skoltech is pleased to announce a call for applications for a new M.Sc. fellowship program in Information Technology and Computer Science. Applications are due on 23 June for Russian citizens and 2 June for internationals. The program starts in August 2014.

Here at Skoltech, we’re building a novel research and education environment that provides training not only in fundamental knowledge, but also in the skills necessary for this changing world, including entrepreneurship, leadership, and the ability to innovate.

Over the course of the two-year program, students will become experts in an area of their choice, whether it is purely within Information Technology and Computer Science, or cross-disciplinary: courses from Biomed, Space, Nuclear, and Energy programs are available to all students!

All students will complete a company-based project as part of our Industry Immersion program and will be able to do research or a master’s thesis in our brand new Skoltech Center for Computational and Data-Intensive Science and Engineering, a collaboration with MIT, UT-Austin, and Moscow State University.

At Skoltech, we prepare our students to impact the world – through science, technology, and entrepreneurship. Apply today!

Selected Program Courses:
- Computational Control
- Systems Optimization
- Great Computational Methods
- Machine Learning
- Computer Vision
- Fast Methods for Partial Differential Equations
- Multicore Algorithms
- Model Order Reduction

Entrepreneurship & Innovation Courses:
- Innovation Workshop
- Ideas to Impact
- Venture Financing
- International Business Studies

Industrial Immersion:
- Work experience in a top-level company or a start-up of your choice

Research and Thesis:
- Conduct research in areas of Science & Technology and/or Entrepreneurship & Innovation

Every admitted student gets:
- Generous stipend
- Medical insurance
- Diverse international environment
- Exchange opportunities with partner universities, including MIT

and pays no tuition fee

How to apply:
- Submit an online application at apply.skoltech.ru before the deadline of 23 June (Russian students) or 2 June (Internationals)
- Application includes: CV, 3 letters of recommendation, Statement of purpose, Transcripts from current or previous higher education institutions
- Note: All courses at Skoltech are offered in English.

Students invited to the second round of the application process will have the opportunity to sit for TOEFL exam at Skoltech on 12 July 2014.
