Summer Pervez
Chin Banerjee

We are facing more extreme weather, devastating hurricanes, floods, droughts, and rise of sea levels. But governments are doing little and promoting more drilling, dirty oil, pipelines, tanker traffic, and fracking. How are we to deal with loss of land, loss of crops, destroyed homes, shortage of food and water, and massive displacement of people?

RSVP:
Chin Banerjee, cbanerjee@telus.net;
Mohammad Zaman, mqzaman.bc@gmail.com

Organized by:
South Asian Network for Secularism and Democracy and Society for Bangladesh Climate Justice with the support of the Institute for Diaspora Research and Engagement, Canadian Centre for Policy Alternatives, Dr. Hari Sharma Foundation, and Greater Vancouver Bangladesh Cultural Association.
