AWARDS & HONOURS

FIELD SCHOOLS/FIELD TRIPS
PRESENTATIONS

As part of the Natural Resources Canada, National Science & Technology Week October 12 - 21, 2007, visiting faculty member, Bert Struik (a geologist with Natural Resources Canada) participated in a "Trek to the Top!" Expert Speaker Panel, on October 18th at SFU. Experts from different Government of Canada departments spoke to college and university students about their 'treks to the top' and ongoing journeys in their fields of expertise including, the twists and turns of their career paths, how and why they arrived at their present jobs and exciting aspects of their work.

PROGRAM NOTES

At its July 11, 2007 meeting of Senate, SCUP reviewed and approved the full program proposal for a Certificate in Earth Sciences from the Faculty of Science and recommended its approval to the Board of Governors.

At its September 11, 2007 meeting, the Senate Committee on Undergraduate Studies (SCUS) approved the following curriculum revisions in the Breadth, Qualitative and Writing (B,Q,W) Designations.

EASC 107-3 as a B-Sci Designated Course

and

EASC 314 as a Q Designated Course.

RESEARCH
Several faculty are submitting NSERC applications this month. They are (hopefully we haven’t missed anyone): Peter Mustard, Dan Marshall, Dirk Kirste, Shahin Dashtgard, Glyn Williams-Jones, Diana Allen, Dan Gibson & Andy Calvert.

Welcome to Baby Noor van Leuzen-Heideman.
