1. Introduction

Welcome to the Department of Earth Sciences. This guidebook is intended to help you become acquainted with how things work in the Department. Most of the information has been put together from various sources including graduate students, SFU calendar, staff, etc. When in doubt, please ask someone for help. **Note:** The information in this guide does not supersede that in the University Calendar or other university policies or regulations.

**Checklist:**

- Payroll start-up forms – fill out the [Personal Data Form](#), [TD1 and TD1 BC forms](#)
- Get a Social Insurance Number (SIN) (see further info on Page 5)
- Sign up for a bank account with any of the many financial institutions. *(See further info on Page 5).*
- Provide a photocopy of student Visa and passport
- Provide proof of Provincial Medical coverage (MSP), OR
  
  **FOR OUT OF PROVINCE AND INTERNATIONAL STUDENTS**
  
  - Arrive for Medical Insurance/Extended Health Benefits (guardme.ca) (see further info on Page 6), AND
  - Apply for BC Medical Services Plan (MSP) (within first 30 Days)

- SFU Graduate Student Society Graduate Benefit Plan
  a) Students starting in September or January will be automatically enrolled in the Plan.
  b) Graduate students starting in May are **not automatically enrolled**, but have the option to enroll by contacting studentcare.net/works, or completing the Self Enrolment (please see page 10)

- Courses – Register for courses. You must **always** register for your graduate thesis project each semester (EASC 898 M.Sc. Thesis and EASC 998 for Ph.D. Thesis). Check with your supervisor to see what other courses you should be registering in.

- Make sure your tuition fees are paid
- Get your library/ID card. *(See below on Page 6)*
- Get your bus pass (UPass) (See below on Page 6)
- Activate your Computing ID (See below on Page 7)
Social Insurance Number:
A Social Insurance Number (SIN) is a number that the Canadian government requires for taxation purposes and without one, you cannot get paid. A Social Insurance Number is only required if you earn income in Canada, on or off campus. This number enables your employer to make the necessary government deductions. You are required to show your employer the letter that you will receive with your SIN number or give him/her the receipt proving you have applied for one within three days of commencing employment regarding SIN numbers, please visit the following:

International students can only apply for a SIN and must present a study permit issued by CIC that states the permit holder “may accept employment” or “may work” in Canada. If neither of these statements is on the study permit, the international student will need to contact CIC to obtain an official “confirmation to work” letter. To apply for a SIN, an international student must present both documents (study permit and official “confirmation to work” letter).

The SIN number will be issued/valid for the duration of your current immigration document.

You must apply in person at a Human Resources Centre office closest to your home with your original documents. The Burnaby office is at 100-3480 Gilmore Way, Burnaby, BC. For other offices, check their website.

Obtain a receipt from the office to show your employer that you have applied for a SIN so that they are able to put you on the payroll right away.

Banking:
Opening a bank account:
It is highly advisable that all students open a bank account when they arrive in Canada. When choosing a bank, consider convenience and whether or not the bank has a student account option. In order to open a bank account, you will likely need your passport, Student ID, proof of enrollment and documentation verifying your address (i.e. phone bill, lease or residence agreement).

Two types of accounts:
- **Chequing** - This is the most common type of account for everyday needs. When you open a chequing account, the bank will issue you a debit card (Interac) that can be used to pay for purchases in most stores and to make cash withdrawals at Automated Teller Machines (ATM). Charges made to your debit cards are deducted from your account immediately. The bank will typically issue you a few free temporary cheques, but you will have to pay to order more. Cheques are often used to pay rent and bills. Many people prefer to bank and pay their bills online or over the telephone. Ask about these options too. Be aware that Canadian banks often charge transaction fees for withdrawals, using your debit card, online and telephone banking etc. Ask if they have a student package and make sure you understand how you will be charged for services.

- **Savings** - If you have a larger amount of funds for your studies, you can place them in a savings account. This account option offers minimal interest growth on your savings but typically the money is not locked in. If you don’t need immediate access to your funds, ask the bank about other savings options. It is quite common for banks to put a hold on large deposits. If you need access to certain funds to pay your tuition or rent soon, find out if and for how long a hold will be put on your funds before you make any transaction. Also, before
you initiate a transaction to wire transfer funds to or from your home country, make sure you find out how much it will cost and how long it will take.

Medical Insurance:
STUDENTS REGISTERED AT SIMON FRASER UNIVERSITY MUST BE COVERED BY HEALTH INSURANCE AT ALL TIMES AS PER SFU CALENDAR (MEDICAL REQUIREMENTS)

British Columbia Medical Services Plan (MSP):
You must have coverage under the BC Medical Services Plan (MSP) as a resident of BC. Because there is a three month waiting period before newcomers are eligible for BC MSP you will need to apply online to Guard.me as soon as you arrive in BC. MSP covers the cost of basic medical care within BC including most physician and hospital services.

MSP does not cover dental care, prescription drugs, or vision (such as eye examinations or corrective lenses).

Apply Online or by mail Click here to download the MSP Form.

International Students (guardme):
International (visa and exchange) students will be automatically enrolled in a mandatory 4 month primary medical insurance plan through guard.me this plan provides coverage for the waiting period for MSP and can be used together with the SFSS/GSS extended benefit plan.

Once a student receives a carecard/valid B.C. Medical Services Plan (MSP) he/she must opt out of the plan to avoid further enrollment.

The cost per student will be approximately $281/term and will be included in their student fees. Opt out procedures will be in place for students who can demonstrate BC MSP or acceptable equivalent coverage. For further information about Medical Insurance click here.

Medical Benefits are provided by the University (upon application) for those graduate students who will hold a TSSU – Teaching Assistant appointment. (Please refer to TSSU section on page 11)

I.D./Library Card:
During your first semester you will need to get your photo I.D. For more information on how to get your library card click here.

The U-Pass Student Transit Pass:
U-Pass BC is a mandatory program for all members of Simon Fraser University's Student Unions. The program provides unlimited, all zone access to public transit in Metro Vancouver including TransLink Bus, SkyTrain and SeaBus services (all zones) and a discount on West Coast Express Train fares. The cost is added to your student account and must be paid at the same time as your tuition.

An amendment to the current U-Pass BC agreement has been negotiated and made to extend the agreement. The current term rate of $164 per term will be effective until December 31, 2019. If you have any questions about this amendment, contact your respective student society representative.

An SFU Computing ID gives you access to email, goSFU enrollment systems, myInfo employee system, WebCT and other eLearning systems, campus labs, SFU modem pool, SFU Library services, web publishing facilities, and to a variety of business systems.
When and how do new graduate students get computing IDs/passwords?

1. Receive an offer of admission from SFU
2. Accept the offer of admission by paying a deposit of $250.
3. Then you will receive instructions in mid-June for Fall admission, mid-Oct for Spring admission or mid-Feb for Summer admission, if you’ve paid your deposit before those dates. After these dates, you’ll get it 5-7 business days after you’ve paid your deposit. In all cases, you will get an email from SFU when it is ready. **If you pay your $250 deposit less than 10 weeks before your first semester, 5-7 business days later you should receive email saying your SFU computing ID is ready to activate.**
4. Once you have received email saying your SFU computing ID is ready, go to [http://my.sfu.ca/AccountActivation](http://my.sfu.ca/AccountActivation) and follow the instructions to activate your SFU Computing ID.

For further information, please visit the [IT website](http://my.sfu.ca/AccountActivation).

**Keys:**
See Grad Secretary for any key requisitions you may require for offices, labs, etc. Keys are available from The Access Control office located in Room 1300 in Discovery 1. Effective 1 April 2017 a refundable purchase price of $20 per key is required. If you get locked out of your lab or office, see Matt as they have copies of most keys. If they are unavailable, Campus Security can grant you access provided you have your student I.D.

Matt also have keys for any cabinets in the labs.

**2. Administration**

**Administrative Staff:**
The following may be useful contacts during your graduate studies program here at SFU.

**Chair, Graduate Studies Committee:** Andy Calvert
He is responsible for signing, a departmental reference point on procedures. He is the person to see if you have any concerns re: supervisor, committee procedures, etc.
Manager, Academic & Administrative Services: Tarja Vaisanen
She is responsible for all things financial. Such as: TA-ships, RA-ships, payroll, travel expenses, expense claims. She is also responsible for anything administrative such as budgets, staff, etc. As well as the undergraduate advisor.

Simon Fraser University
Graduate and Postdoctoral Studies 24255 MBC1100 gradstdy@sfu.ca
David Chokroun 24747 LIB Rm 7026 theses@sfu.ca
Chrystal Yin 23269 LIB yya192@sfu.ca

It is your responsibility to check your mail regularly and change your address when you have secured permanent accommodation.

SFU will be sending you important mail while you are a student. If you move, please ensure your personal information and mailing address is updated on the Student Information System at Payroll and as well as here in Earth Sciences.

There are mailboxes for each graduate student located in Room 7403 (Coffee Room) in Earth Sciences. Please make sure that you collect your mail.

2. a TSSU (Teaching Support Staff Union)

Medical Insurance:

When you are supported by a TAship:
Members of the teaching staff Union and their eligible dependents are entitled to benefits including medical services plan of BC, extended health benefits, and dental plans. Click here for more information on being put on the University MSP and Extended Health Plan.

As soon as you receive your TSSU appointment you may apply for coverage in Human Resources. Bring a copy of your appointment form with you. If you are Canadian, but not from B.C., you also need to bring proof of Canadian Citizenship. If you are an international student you must bring your visa with an employment or student authorization. Coverage is not automatic. YOU MUST RE-APPLY EACH SEMESTER FOR CONTINUED COVERAGE.

Please note that copies of work permits/student authorizations must be submitted to Human Resources.

MSP Medical Coverage expires at the end of the month in which a Work Permit or Study Permit expires. If they are renewed, coverage will only be reinstated once MSP has received a copy of the new documents.

TSSU Coverages:
Medical Services Plan:
The University pays 100% of the monthly premium for eligible employees upon their written application. This plan covers the cost of the following services (subject to the terms and conditions of the plan):

• general practitioner and specialist services where medically required;
• hospital care at ward level;
• qualifying hospital expenses such as those for laboratory examinations, operating rooms, and drugs administered while in hospital;
• surgical procedures medically required;

For further details on these benefits and eligibility please refer to TSSU benefits webpage.

All TSSU members who have a Provincial Medical plan in Canada are eligible for the Extended Health Care Benefit. For further details on this plan please click here to refer to Human Resources web page.
**TSSU Member Child Care Bursary Fund:**
If you have children, are a student at SFU, and currently hold an appointment as a TA, TM, Sessional Instructor or ELC/ITP Instructor, you may be eligible to receive the TSSU Member Childcare Bursary. [Click here](#) for more Information on the bursary.

Eligible applicants may apply each term, online through the Work-Study/Bursary application found on the Student Information System (go.sfu.ca) during the application periods. Applications submitted during the application periods will also be considered for any additional bursaries which may be available. Please ensure you answer 'yes' to the question on the online application asking if you are applying for the TSSU Member Childcare Bursary.

**When you are supported by a scholarship or an RA:**
It is your responsibility to apply for and pay for your own medical premiums. Information and application forms are also available online. Most students are eligible for reduced premiums (premium assistance) as the premiums are based on your income.

Please check each semester to ensure you are covered by one of the above-mentioned methods.

**SFU Graduate Benefit Plan (ihaveaplan):**
Any student enrolled in a graduate program at SFU in September or January will be automatically enrolled in the Plan, including off-campus, part-time, and international students. Great Northern Way Campus students are also covered by the Plan.

Graduate students on approved leave or beginning their academic year in May are not automatically enrolled, but have the option to enrol by contacting studentcare.net/works. Please [click here](#) go to the webpage for further information.

[Click here](#) to know how much does it cost and the breakdown of each term.

You can opt out if you provide proof to [www.ihaveaplan.ca](http://www.ihaveaplan.ca) of equivalent coverage. If you do not opt out you will owe the plan fee for this academic year.

Opting out must be done every year even if you have opted out before. If you have provided proof of coverage to [www.ihaveaplan.ca](http://www.ihaveaplan.ca) previously, you can just log in to that website and indicate that you want to opt out.

**Change-of-Coverage Period**
The Change-of-Coverage Period is the period at the beginning of the semester when you can either opt out or enroll your spouse and/or dependents in the Graduate Benefit Plan. Students who aren't automatically covered by the Plan and who are eligible to enroll must complete self-enrolments during the Change-of-Coverage Period.

*For further information on the Graduate Student Society health and dental plans, please visit the following website: [www.ihaveaplan.ca](http://www.ihaveaplan.ca)* or visit the Graduate Student Society.
2.b Guidelines for Field Research
The Graduate Student Benefits Card Registration form, Graduate student Benefits Waiver form and a basic description of the SFU Graduate Student Health & Dental Plan form are also included with this Guide.

Consistent with its educational mission, the University strives to impart awareness of safety issues to the members of its community. Furthermore, the University has a responsibility to manage risks associated with its operations. The Field Research Guidelines address these issues by establishing a framework for planning, risk-assessment, and support of all University-sanctioned field research activities, and it defines the responsibilities of individuals involved in these activities.

Field research can entail significant risks. Although the primary responsibility for health and safety rests with the Principal Investigator in charge of the field research project and team leaders who are involved in directly supervising research on location, all participants in field research bear some degree of responsibility. Reasonable Care must be exercised by all concerned parties in giving attention to the nature of, and the means for addressing the categories of risk that may be associated with each location and kind of field research.

The Principal Investigator must also ensure that each individual researcher or research team member is aware of the provisions of the Field Research Policy, the Guidelines for Safety in Field Research, the risks of the particular project and appropriate controls and safety procedures in place, as well as specific requirements such as specific safety training, visas, immunizations, health insurance requirements, and where applicable informed consent and/or signed waivers from volunteers participating in the research. (See attached manual for further details)

3. Graduate Studies

Department Graduate Studies Committee:
The Department Graduate Studies Committee (DGSC) is an extremely important part of the Graduate Program. The DGSC is responsible for recommending the acceptance of new graduate students as well as setting and amending policies for the EASC graduate program with the approval of the Department. The DGSC also oversees student progress, evaluations, student/advisory committee relations, scholarship competitions and most other matters relevant to graduate students.

Courses and Registration:
All graduate students must register each semester. You do this through the on-line Student Information System. New Students must pay a $250 deposit 5 days prior to gaining access to the on-line Student Information system. This $250 is applied towards the tuition fees and is not an extra charge. If you are having difficulty with registration, please see the graduate secretary for assistance. Students must register for their thesis each semester (M.Sc. = EASC 898 and Ph.D. = EASC 998). Failure to register will result in the student being required to complete a new application for admission to graduate studies. You should consult with your Supervisor on what courses you should take each semester.

The Department normally announces courses to be offered a semester in advance. Students may also take Directed Studies or Special Topic courses or may be eligible for courses in other departments.

You may take courses at other universities for credit here at SFU. It is common for our graduate students to take 1 or 2 courses at UBC. Although, only half of your coursework may be completed at another university. Under the Western Dean’s Agreement you can take courses at
western Canadian universities without paying course fees (although you will have to pay activity fees). Plan ahead. Getting permission and registering to take courses somewhere other than at SFU takes time (six weeks or more). For further information click here.

"It is the responsibility of each student to be aware of faculty regulations as stated in this Calendar. Departmental and faculty advisors and staff are available for advice and guidance. However, the ultimate responsibility for completeness and correctness of course selection, for compliance with and completion of program and degree requirements and for observance of regulations and deadlines rests with the student."

Responsibilities as a Graduate Student:

Timelines:

Paying your Tuition Fees
To avoid paying penalties on outstanding fees, pay your tuition fees on or before the due date. You can pay tuition fees via online banking, a cheque issued to the university or in person to the staff at the General Enquiries counter at Student Services. Click here for more information on how to pay your fee. SFU student fees can be found at http://students.sfu.ca/fees/. The specific amount you owe and the date it is due will be on your personal account page at the Student Information System.

All awards are paid through SFU Student Accounts — tuition and other fees you owe the University are deducted first and then the remainder of your award is paid to you via direct deposit. Check the Award Payment Schedule page for more information on how to activate your award and to check the payment schedule.

Payroll Deduction Process for TSSU Members
Only TSSU members with an active appointment during the semester in which they are students are entitled to the benefit.

Eligible students will use the “Self-Serve” functions on the Payroll site to sign up for payroll deduction.

Students will have to set up the total amount of tuition and fees they want deducted from their pay over the course of the semester. They will be able to enter a deduction as a flat amount to be deducted from every payroll deposit or select a flat amount to be taken each pay but with a maximum amount to be deducted over the course of the semester; once that amount has been reached, no further deductions will occur. Please note: they will not be able to enter a total deduction and have the system split it out evenly.

At any point during the semester, the employee can view total deductions to date on both their online pay advice statements and their tuition deduction enrolment web page. Adjustments can be made throughout the semester if they want to increase or decrease the amounts deducted from each payroll deposit. When they enroll for payroll deduction, and when any deduction amount changes are made, an email will be generated that confirms their enrolment, deduction amount per pay, and the total amount that will have been deducted as of the last pay of the semester. Click here for further information.
Supervisory Committee

All graduate students are required to have a supervisory committee by the beginning of the second semester of study. Supervisory Committee forms are available on the Department of Graduate and Postdoctoral Studies website. If you need to change your supervisory committee after it is originally formed (add/remove members), you must complete a Change of Supervisory Committee form. A Supervisory Committee form should be submitted to the Graduate Secretary no later than the beginning of the 2nd semester and should have attached to it, a C.V. for everyone on the Committee who is not employed by SFU.

EASC 810 MSc Thesis Proposal

A Thesis Proposal (EASC 810) is presented by the end of the second semester. Click here to see MSc. THESIS PROPOSAL Outline

EASC 910 - PhD Candidacy Examination

Every earth sciences PhD student must complete an oral candidacy (EASC 910) examination prior to the end of the fourth semester of registration, or in the first semester after transferring from the MSc program. The candidate must submit a written thesis proposal to the supervisory committee and present it at the beginning of the oral candidacy examination, which will be followed by an oral examination. Click here to see PhD Oral Examination Outline.

EASC 901 (Seminars for PhD Students):

PhD students must give one research seminars (EASC 901) as part of their course work; which should be based on completed, or nearly completed thesis work. Students are expected to attend all the research seminars in the department. Tips on how to deliver an engaging seminar

Online Grad Progress Report:

Three times a year, DGS will generate the Grad Progress Reports (GPR) based in the Admit Term as follows:

<table>
<thead>
<tr>
<th>Admit Term</th>
<th>Generate Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>April 30th</td>
</tr>
<tr>
<td>Spring</td>
<td>August 31st</td>
</tr>
<tr>
<td>Summer</td>
<td>December 23rd</td>
</tr>
</tbody>
</table>

The supervisory committee shall report on the student’s progress using the following criteria:

a. CGPA, which must meet the minimum standard of 3.0
b. Satisfactory progress guidelines where such have been set by academic units;
c. Norms of the discipline or program relevant to the student’s stage of degree completion;
d. Annual goals or requirements set by the supervisory committee and the student.

The Grad progress report consists of a self-evaluation summary of your progress over the past year, a list of courses taken and grades achieved, a summary of financial support and an evaluation by each member of your committee, that you have made satisfactory progress over the past year. It is completed by the student and all members of the Supervisory Committee as well as the Graduate Chair.
Regulations and Guidelines for Thesis Defence:

**Examining Committee Form**

Should be completed at least four weeks (Masters) and six weeks (PhD) prior to defending. Attached to it must be, a 2 pages C.V. for any external members not employed by S.F.U and an abstract from the student defending.

**Thesis Defence**

Every fall the Graduate Studies Secretary circulates a timeline of dates. You should review these dates if you are aiming to completely finish by the end of that term. The series of dates are based on the last date for submission of the post-defence completed thesis to the SFU Library – which cannot be changed.

Note the date in the calendar which says "Last Day for Submission of all grad degree requirements including thesis to the library" this is the critical date.

Many other help sheets, thesis templates and other resources are also available online.

To review your own document, please click here to sign up for one of the workshops.

Before submitting your final thesis to the library, please follow these final steps

You will need to submit a digital thesis to the Library. New guidelines and procedures have been updated on the thesis webpages.

You are welcome to register and book an in-person or telephone Thesis Formatting or Submission appointment via the online booking system, by phone at 778.782.4747 or email theses@sfu.ca.

**Graduate and Postdoctoral Studies:**

The Graduate and Postdoctoral Studies is responsible for the overall administration of graduate programs through the graduate general regulations, for maintenance of student records, and for the administration of all merit-based awards. Processing of admissions is delegated to the dean by the senate graduate studies committee.

The Graduate and Postdoctoral Studies website provides comprehensive information about Graduate Studies opportunities, policies, procedures and regulations at SFU.

**4. Financial Support**

The Department strives to offer full financial support for our graduate students. This can be done through fellowships, teaching assistantships, research assistantships or scholarships. Normally, full financial support is provided through a combination of mechanisms, generally requiring that the senior supervisor agree to provide a research assistantship for at least one semester.

**Teaching Assistantships:**

Graduate students are hired to conduct undergraduate labs, mark exams and assist in course labs. Notification will be sent out by email prior to the semester. You are also eligible to apply for TAships in other departments for any relevant courses.
All TA’s are represented by the TSSU (AUCE local 6). When you accept a TAship you automatically become a member of the TSSU and therefore are entitled to all the rights and benefits provided by the Union. Everyone in the bargaining unit pays Union Dues (currently 2% of gross pay) which enable the Union to function. Click here to see TA Hiring Priorities.

TSSU Benefits: MSP/Extended/Dental/Child Care Bursary. (See under Medical Insurance-page 9)

At the beginning of the appointment you should meet with the instructor to determine the expectations for the TAship. The instructor is required to fill out and review with you a Time Use Guideline (TUG) which outlines the specific expectations and time commitment for the TA appointment. The TUG must be submitted by the course instructor to the Departmental Assistant by the end of the third week of classes.

Near the end of the TA appointment, your students and the professor you work for will evaluate your performance. This evaluation will be kept on file. You have the right to see this evaluation after the final course grades have been assigned. If you feel the evaluation is unfair, you can respond to it and have this response placed in the file as well.

All textbooks needed to TA a course can be borrowed from the Department. If the Department does not have the required text, see Tarja. In short, you never have to pay for texts assigned in classes that you are TAing. However, any book bought or borrowed from the Department belongs to the Department and must be returned when the course ends.

The SFU Co-op office hires graduate students to mark co-op work term reports. This usually occurs at the very beginning of each term and is a 1 month TSSU appointment. Contact the co-op office for further information.

Please follow these instructions to View your Pay Notification:

You can access your pay notification in six easy steps:
1) Click on Faculty & Staff and then ‘My Info’ on the SFU homepage at http://www.sfu.ca/
2) Log in using your SFU student email username and password. Contact ACS 778-782-3234.
3) Select 'Payroll and Compensation Home'
4) Select 'View Paycheque', which will default to your current paycheque
5) Click on ‘Personal Information Home’ and then
6) Click on ‘Personal information Summary’ if you need to change your address or phone number.

Research Assistantships:
Most faculty members are able to offer research assistantships to graduate students studying under their supervision. The level of support varies depending on the field of study and the availability of research grant funds.

A Research Assistant (RA) has duties and stipends that vary widely. In most cases, grad students are RA’s for work on their own thesis research. Contact the Graduate Studies Committee Chair for Earth Sciences or your potential Senior Supervisor for further information.

Workshops:
All TAs need to take the following workshops but, we do encourage all the students to take them as well.

- Students in Distress (Optional if you are not TAing)
  At times you've probably noticed students who seem to be in distress. You may have worried about them but not known how - or whether you can or should do anything about it.
This Response Guide is intended to help you identify, and potentially assist, students in distress. You don't need to take on the role of a counsellor but your observations and actions can play a key role in connecting students with the many available resources and supports at SFU. The Faculty of Science will make arrangements to provide 2 workshops along with health & Counselling Services.

- **New Young Workers Safety Orientation** (Mandatory for all the students)
  It is mandatory for all new employees hired to perform work at SFU. SFU is required to provide workers with orientation and training about safe work procedures and how to recognize hazards on the job before they start work. The Orientation is provided in Canvas and topics such as hazard and incident reporting, roles & responsibilities, worker rights, health & safety committees, emergency response, working alone and workplace bullying & harassment will be covered.

- **Plagiarism** (Mandatory for all the students)
  This workshop will be included in our orientation EASC 600

- **Bullying & Harassment** (Optional if you are not TAing)
  This workshop will be included in our orientation (EASC 600)
  All employees at Simon Fraser University must participate in workplace bullying and harassment training. An online training module is available for both employees and supervisors that provides an overview of the WorkSafeBC requirements and SFU program. In addition, training sessions will be provided to departments and service units upon request. An external training provider will be brought in to deliver focused training workshops to areas/departments, when deemed necessary.

- **Lab Safety** (Mandatory for all the students)
  Environmental Health and Research Safety and IT Services have developed a new online Laboratory Hazard Inventory System. This system is designed to maintain and manage the chemical inventories for any laboratory or area on campus that contains chemicals, thereby enabling SFU to meet its regulatory compliance requirements. The system also manages inventories of lasers and x-ray devices.

- **WHMIS - Hazardous Materials** (Mandatory for all the students)
  An online WHMIS module is available to all SFU faculty, staff and students through Canvas. The module is aligned with the most recent version of WHMIS, known as WHMIS 2015.

**Scholarships:**
Please note that most awards are now applied for using GA3

The [Grad Awards and Adjudication System](https://gradawards.sfu.ca) (GA3) is an online system where SFU students can apply for merit based graduate awards and scholarships. Students can begin by completing a profile, which will populate each of their award applications. Students can also receive their status on submitted applications, accept or decline awards and review their financial profile.

The system will only show awards that are currently open to be applied for; students are encouraged to browse the website to see all the awards that will be available over the course of their degree program(s). For further information on the GA3 awards system, please [click here](https://gradawards.sfu.ca).

**Be sure to bookmark:** [gradawards.sfu.ca](https://gradawards.sfu.ca)

Graduate Fellowship Award applications and the Terms of Reference are available online as well at the above website. The Earth Sciences Graduate Fellowship Adjudication policy is attached. There are also NSERC (Natural Science and Engineering Research Council) applications at [www.nserc.ca](http://www.nserc.ca). Applicants must have obtained a first-class average grade of A- or "minimum" GPA of 3.67 - in "each of the last two completed years of study" is required to be considered.
4.a Income Tax Information

Payroll Forms:
1. Students who received income (RA) or Scholarship payments via Payroll are issued a T4 or a T4A, which can be accessed and printed online via mySFU ("How to get your T4/T4A Instructions")
2. Questions should be directed to Payroll (payroll@sfu.ca).

Student Services Forms:
All students who paid tuition fees are issued a T2202A, and students who received scholarship payments via Graduate Studies are issued a T4A, both forms can be accessed and printed online via their goSFU account

No paper forms will be mailed. Questions should be directed to Student Accounts (staccts@sfu.ca).

Students who received scholarship payments via SIMS (Grad Fellowship, President Research Stipend, etc) are issued a T4A, which they can access and print online via their goSFU account (just like their T2202A). No paper forms will be mailed. Questions should be directed to sfu-t2202a@sfu.ca.

For further information on filing a Tax Return, please visit the Tax Information website.

SFU is required to report this information to all students to enable them to complete their Canadian income tax returns.

As a resident of Canada you are required to file a Canadian income tax return. The T2202A is a tax receipt for the tuition you have paid that can be used as a deduction against income you may have earned while in Canada. Your employer issues a T4 for salaries or wages you have earned while in Canada. The University issues a T4A for scholarships, bursaries or other monetary awards you received during the calendar year.

If you have not received any income in Canada during the calendar year, you may be able to use the T2202A against income you or your parents may have received in your home country. Contact an income tax professional or SFU International for more information.

4.b Financial Research Support

Please Note: Before spending/incurring any costs – please see your supervisor first.

Graduate and Postdoctoral Studies Travel and Minor Research Awards:
Travel and Minor Research Awards support the travel component of the scholarly activity of graduate students. Travel should be related to their research.
**Grad Caucus:**

**GRANTS FOR CAUCUSES**

The GSS provides grants of up to $750 to caucuses to help fund a wide variety of events and projects that will directly benefit and strengthen your caucus as a whole. Examples include, but are not limited to:

- Conferences
- Departmental colloquia
- Establishing a research journal or publication related to your field
- Career and networking functions
- Orientation for incoming students to your department

The process for applying for a grant for your caucus is explained in the grant funding guide. Questions about caucus grants should be directed to the Treasurer (gss-treasurer@sfu.ca).

For further information, please visit the website at [http://sfugradsociety.ca/](http://sfugradsociety.ca/)

**4.c Financial Service: ie. Field and Conference Travel**

**SFU Travel and Business Expense Claim:**

Reimbursement for air travel (field research, conference, etc) can be claimed with charges made directly to your Supervisor’s project. All completed forms and receipts are handed into Tarja once Supervisor has approved the claim.

**Cheque Requisition (Travel Advance):**

Cheque Requisitions are for travel advances which can be requested prior to travel. You must get approval from your supervisor first. Advances will be received two weeks prior to the date of departure. All advance forms must be submitted to Tarja.

See Tarja regarding all the above forms prior to incurring any charges for Travel and Expense claim forms please visit the finances website

**5. Departmental Administrative Services**

**Mail:**

Mail is delivered to the Department each morning and is distributed to the graduate student mailboxes by the office staff.

Postage on outgoing research mail supported by your senior supervisor (letters dealing with research projects, reprint requests, reprint mailing etc.) is paid for by the Department. If speed and security are important, courier services may be used.

Students may send personal mail through the university provided sufficient postage is attached.

Inter-departmental mail and mail to UBC & UVic requires no postage.

To avoid excessive use of paper and copying, much of the communication within the Department is done via email, the internet and various bulletin boards.

**Courier Services:**

See Graduate Secretary. In general, we need to have (1) the grant number that service will be charged to, (2) name, address and phone number of the recipient, (3) description of contents
(4) weight ($5) value $$$. You must obtain permission from your senior supervisor before you use a courier service.

Once it is properly packaged, bring the box to the Graduate Secretary for shipment.

**Photocopying:**
The department has 2 photocopiers that you may use; one in the copy room and one in the Seminar Room. Please see our Resource Specialist or Senior Technician (Matt) for access information to the photocopiers. Feel free to ask office staff for assistance if you have any problems with the machine. For photocopying 15 or more copies e.g. exams or handouts for classes, you may want to consider Document Solutions. They require at least 5 working days to complete your order. It is cheaper than using the machine in our office and also saves on wear and tear. See EASC office staff for details.

The library also has card operated photocopiers. See Tarja to acquire one of these cards if so authorized by your supervisor. Cards are charged to the supervisor’s grant.

**Stationery:**
Office Supplies (letterhead, envelopes, overheads, etc.) are available from the General Office for department related activities only i.e. courses. Taking items for personal use is not permitted.

**FAX Machine:**
There is a FAX machine in the General Office. FAX cover sheets are available on the shelf.

When faxes are received, they are distributed to the appropriate mailbox by office staff.

You will know your fax has gone through by a long beep produced by the machine. If it doesn’t go through, it will print a report that will be placed in your mailbox.

**Earth Sciences Room Booking:**
Check availability, contact Graduate Secretary at 2-5387 or email eascgsec@sfu.ca to reserve the room.

**Booking Faculty of Science Seminar Room:**
The Dean of Science offers one room that we can book for seminars, Thesis defences etc. Contact Graduate Secretary at 2-5387 or eascgsec@sfu.ca to check for availability and to reserve the room.

**6. Departmental (Research) Services/Facilities**

**Departmental Seminar Series:**
The department hosts a seminar series in which speakers discuss topics that are of interest to EASC Faculty and students. Seminar announcements are posted on various notice boards and are also sent out via email. Graduate students and faculty are encouraged to attend. This is the setting where students would present their EASC 901 seminar.

**Computer Room:**
The Department has a computer lab located in TASC1-7006. You will need to consult the departmental technician for an access code.
Showers:
We have 2 shower rooms located at TASC 1 rooms 7312 and 7314 and the key for both showers are located at the EASC reception (room 7201)

Science Stores:
Technical and scientific supplies and stationary (tubing, pumps, valves, vials etc.) are available in Science Stores on the 6000 level below the Biology General Office (B6208).

To purchase supplies you require an account. You will need an authorization form and your supervisor will need to sign it. Materials will be charged to your supervisor’s account. Once your supervisor has signed off on the authorization form, please see Tarja at this time.

Click here to check the Science Store hours. You must bring your student card to make a purchase from Science Stores.

If you require something that is not a regular stock item, it can be ordered from a chemical or scientific supply company provided the item you require is listed on one of the Science Stores lists.

*Please note: Student ID cards are required in order to make purchases through Science Stores.

LCD Projector, Slide Projector and Carousel Tray and Laser Pointer:
Equipment for seminar presentations and thesis defenses can be checked out from Matt. It is a good idea to reserve these items in advance.

Audio Visual Services (IT Services)
Audio/Visual IT Services provides computers, data projectors, sound systems, and other related A/V equipment to SFU’s lecture theatres and classrooms. Additionally, equipment loans are available for classes, department meetings, and conferences. Burnaby IT Services is located in SCP 9300, 2-4828 or avservices@sfu.ca

IT Services:
Software Downloads & Licenses. There are multiple software items available to staff and faculty due to campus license agreements. Not all downloads are available to all staff and faculty.

Office 365 for Education, grants the current staff, students and faculty of SFU the use of Microsoft Office for free! Click here for further information.

7. Earth Sciences Graduate Caucus (CONG):
The EASC graduate caucus (CONG) represents EASC graduate students with the objective of improving the quality of student life in the Department. The caucus is involved in organizing student hosted seminar speakers, social events, electing representatives to various committees, etc.

There is a new organization for the Graduate Students and it is GSS (Graduate Student Society) as the Grad students have split off from the Undergrad student. So there will be some overlap between the SFSS and the GSS.
8. University Services:

Library:
The library is located across the mall from the Maggie Benston Centre. Requests for new journal subscriptions, books, etc., not available in the Library can be submitted to the library staff.

Being a graduate student at SFU also entitles you to get a card from UBC. Also, if our library does not carry a journal or have a book that you need, you can request them through Interlibrary Loans (ILL). This accesses libraries across Canada. Any book received through ILL can be kept for 2 weeks. Journal articles are copied and sent to you. Any books that you take out personally from UBC can be returned via the ILL office in the library. Make sure material you need is not available at SFU before placing a request for an ILL. If it is available at SFU you will be charged for it, otherwise there is no cost to graduate students for this service.

The SFU Library’s Understanding and Avoiding Plagiarism:
This interactive tutorial is designed to help students understand what plagiarism is and how to avoid committing it. Working through the tutorial, students will learn to recognize different types of plagiarism and be introduced to various practical skills—citing, note-taking, quoting, and paraphrasing—that will assist them in the writing process. The tutorial takes about 30 minutes to complete and includes two interactive quizzes to test students’ comprehension. For more information on the Plagiarism tutorial, please visit the website at http://www.lib.sfu.ca/help/academic-integrity/plagiarism-tutorial

Health and Counseling Services:
SFU Health Services is located on the bottom floor of the MBC and offers quality health care to all SFU students.

The Health and Counselling Services provides quality confidential health care, counseling, health promotion and Physiotherapy at Burnaby Mountain.

They provide primary health care, specialist clinics, urgent care, first aid and health education and outreach to SFU students. They also offer a Physiotherapy Clinic in the Athletic Complex and a BC Biomedical Laboratory at Burnaby Mountain. Patients are seen by appointment or on a walk-in basis.

- In an emergency, on Burnaby campus call 24500 or go immediately to the nearest hospital’s emergency room or call 911. Emergency calls are free from any phone.
- If you require a specialist, your doctor may give you a referral (make an appointment with the specialist). It is usually not possible to see a specialist without a referral.
- Mild medicines are available over the counter at the pharmacy, or your doctor will write you a prescription.
- No one can see your medical records without your permission.
- Feel free to ask the doctor questions, even if he/she is in a hurry. If you have more than one concern, be sure to address them all.
- It is common to seek a second opinion and your doctor should not be offended.

If you do not have insurance coverage through the Medical Services Plan of British Columbia (MSP), you will be required to pay for the services you receive at the time of your visit.

Please note that the Board of Governors requires students to have valid medical insurance as a condition of registration.

The Counseling Service provides Personal Counseling, Career Counseling, Learning Skills, and Peer Counseling to assist students with the challenges of university life. One-on-one
consultations, individual counseling, workshops, groups, drop-ins, resource information, and outreach activities are offered to enhance your potential and help you meet your academic, personal and career goals.

Crisis intervention services are available to all people on campus during operating hours and may be accessed either through Campus Security or by calling or walking into Counseling Services. After hours crisis intervention is available by calling SFU Nightline. The Counseling Service is staffed by a multidisciplinary team including Enrolled Psychologists, Counselors, Counselor Trainees, a Learning Skills Coordinator and Peer Educators. Students are seen by appointment or on a walk in basis. Personal counseling and learning skills assistance are also available at the SFU Surrey campus. Click here for more information on SFU Health and Counseling Services. You are strongly encouraged to visit them or check out their services online— waiting to figure out how the Canadian health system works when you are ill or injured can cause you additional and unnecessary stress.

If you or your family wishes to use other services, check the College of Physicians and Surgeons of BC to find a family doctor. To find a dentist, contact the Association of Dental Surgeons of BC.

You are under no obligation to commit to the first person you visit so take your time to find someone who makes you feel confident and comfortable. It may be possible to find someone who speaks your native language if it is one that is commonly spoken on the Lower Mainland.

Housing:
On Campus Housing:
Living in residence or “rez” is a great way to get involved in the many programs and activities, meet new people who will become life-long friends, have easy access to classes and the library and live in an environment conducive to studying. Students live on campus in traditional dormitory-style residences, townhouses, studio suites, and one and two-bedroom apartments for families. For information on the costs and deadlines for applying to Residence, please see students.sfu.ca/residences. If you have not already applied for and been accepted into residence this term and have missed the deadline, call the Residence office at 778.782.4201 to see if space is available. They can also advise you how to apply for a future semester.

Off Campus Housing:
SFU Residence & Housing is pleased to announce that we have partnered with Places4Students to provide SFU and FIC students with off-campus rental listings. For more information click here

Other avenues for finding accommodations:

Notice boards: You can find notices of rooms for rent on bulletin boards at SFU International and around campus.

Newspapers: Check the two daily Vancouver newspapers: The Province and The Vancouver Sun. There are also some rental listings in The Georgia Straight, a free weekly arts and entertainment newspaper distributed every Thursday. Check these listings early in the morning and call right away because rentals go quickly in August and September.

• Rental services: There are services that will provide you with a list of vacancies that meet your criteria. These services are often advertised in the rental listing sections of newspapers. They can be helpful and may save time, but there is a charge for this service.
• Word of mouth: Ask other students if they know of any vacancies. There are often many suites in a building, and someone living there already would be among the first to hear about a vacancy.

Parking:
Note that there is no free parking on the SFU Burnaby Campus. In addition, Parking Services both tickets and impounds vehicles found to be parking in reserved parking spaces or in safety violations.

Please click here for information about Rates & Refunds.

There are notice boards about campus where one can join a car or van pool. Click here for further information on Carpooling and Alternative Transportation.

Food:
There are many places on campus for food. This includes two cafeterias, White Spot, Mr. Sub, Tim Hortons, and many coffee shops. Consult the calendar under Dining Services for a full listing of food services available on campus and their operating hours. There is food and other services open in the Cornerstone Building (north of parking lot B).

Meal cards: It is possible to purchase a prepaid Meal Card which can be used at any food service on campus. Contact Dining Services at their office in AQ3176 of the Academic Quadrangle (AQ).

Daycare:
The Children's Centre is a provincially licensed facility operated by the SFU Childcare Society. It provides full and part time services for children of students, staff and faculty of Simon Fraser University and families from the broader community.

If you have children, are a student at SFU, and currently hold an appointment as a TA, TM, Sessional Instructor or ELC/ITP Instructor, you may be eligible to receive the TSSU Member Childcare Bursary. Eligible applicants may apply each term, through the online Work-Study/Bursary application found on the Student Information System (go.sfu.ca) during the application periods.

Maggie Benston Centre (MBC):
Most student services are located in the MBC across from the library. These include a print shop, ombudsman, cashier’s office, volunteer centre, Simon Fraser Student Society (SFSS) office, Graduate Studies Office, bookstore, employment centre, registrar, centre for students with disabilities, health services, counseling, and much more.

Cornerstone Building:
Simon Fraser University's Cornerstone Building, a mixed residential and commercial development next to the B-lot parking lot, has become a focus of the campus community's interest as its retail businesses are growing.

Other businesses that are now open include, Travel CUTS, a Bell store, a bubble tea shop, a print shop, a hair salon and Nester's Market.
Recreational Services:
Our Burnaby Recreation services and programs are available to students, staff, faculty, UniverCity, families, and general community members. Memberships are included for most students, staff and faculty – see eligibility information. Others are invited to purchase a membership, at a very competitive price. Facilities include fitness centre, pools, weight rooms, courts, sports drop-in, squash and racquetball court bookings, etc. Intramural sports ranging from softball to floor hockey to badminton are available to all members of the campus community.

Postal Services:
Nester’s Market operates a full service Canada Post postal outlet. We sell stamps, envelopes, boxes, courier service, postcards, and other mailing supplies. Designated Post Offices accept and verify student load and grant applications. Need a passport application form or a tax return package? Come to us! We are also the location to pick up undeliverable parcels and registered mail, and international shipments with duties charged, from SFU Burnaby and UniverCity.

Student Society:
The GSS (Graduate Student Society at Simon Fraser University) is the student society for SFU grad students.

The GSS is happy to help SFU grads find the information and assistance they need to navigate and enjoy their experience at SFU. Feel free to contact them with questions, problems, or suggestions. If we can't address it ourselves, we'll help connect you with the right people. For further information visit GSS website.

Travel Agency:
Travel CUTS (Canadian University Travel Service) has an office in the Cornerstone Building. If you are planning a trip, they can often find the cheapest way of getting you there.

International and Exchange Student Services:
International Services for Students (ISS) provides support to graduate and undergraduate visa students and their families. It is located in MBC 1200 and is open from 9.00 am – 4.00 pm.

They can help you with the following:
- Canada Immigration to clarify regulations and procedures.
- Information on appropriate medical coverage
- Housing options, tenant rights and group sharing
- Temporary mail facilities for new students
- Liaison with academic departments and units in support of international student issues
- Orientation – full and mini-orientations prior to the start of the semester, to familiarize students with the University followed by reunions approximately six weeks later
- Social Insurance Number – How to obtain one and what information you will need

International Teaching Assistant Seminar:
A graduate seminar specially designed for teaching assistants and graduate students who speak English as an additional language. Time and place will be announced via email.

Click here to register for this program or contact them via email at: ita@sfu.ca
9. Other Important Information and Amenities:

Citizenship and Immigration

Please note that immigration regulations and procedures listed below are subject to change. You should consult the Citizenship and Immigration Canada (CIC) website for any updated information prior to making any applications.

It is your responsibility to ensure that you maintain your immigration status and obey immigration regulations while studying at SFU and in Canada. Check your immigration documents (study permit, work permit and/or Temporary Resident Visa) to ensure that they are accurate and valid for study at SFU and note when they need to be renewed.

Please feel free to consult with an International Student Advisor at SFU International if you have questions or concerns. Taking immigration advice from friends or unauthorized consultants and agents is not recommended.

Immigration Documents

Before you arrive in Canada, you must obtain the correct immigration document that accurately reflects your student status. Apply early to ensure your application is processed in time. For further information, please visit the following website

Other large financial institutions include HSBC and Toronto Dominion (TD).

Public Transportation:

Buses run regularly to SFU from about 6.00 am to 12:30 am. This is an economical, environmentally conscious and fairly reliable method of getting to and from campus.

The Greater Vancouver Regional District (GVRD) has a transit system (known as TransLink) which includes buses, SkyTrain (an elevated rapid transit train), SeaBus (passenger-only catamaran ferries between downtown and the North Shore), community shuttles and the West
Coast Express commuter train (between downtown Vancouver and Mission). Visit [http://www.translink.bc.ca](http://www.translink.bc.ca) for schedules, trip planners, route maps and further information on public transportation. You can also call 604.953.3333 between 6:30am and 11:30pm for information.

How to get to the SFU Burnaby Mountain Campus:
- 95B Line SFU/Burrard Station
- 143 Coquitlam Station/SFU (Monday to Friday only)
- 144 SFU/Metrotown Station
- 145 SFU/Production Way Station

**SkyTrain:**
The SkyTrain is a rapid elevated transit train. SkyTrain links with a network of buses at many stations and with the SeaBus at Waterfront Station in downtown Vancouver. Daily SkyTrain service is provided every three to five minutes. Three lines are currently in operation:
- **Expo Line** operates two routes. One between Waterfront to King George Station and the second route between Waterfront and Production Way-University Station
- **Millennium Line** operates between VCC-Clark Station and Lougheed Town Centre plus the Evergreen Extension Connects from VCC-Clark to Lafarge-Douglas Station.
- **Canada Line** connects downtown Vancouver to the Vancouver International Airport (YVR) and the City of Richmond

Due to heavy traffic. Rush hours vary from where you are but will usually be between 7am to 9am and again from 3pm to 6:30pm. During these hours you might find that public transportation moves more slowly, so plan for a little extra time when travelling or driving during rush hours.

**Driver's License:**
As Simon Fraser University is on a list of recognized BC institutions, full-time international students who normally reside out of the province may drive in BC with valid international driving licenses. While driving, you must carry your valid International Driving permit or your valid home driver's license (and an official translation if it is not in English), your valid SFU student card and your study permit. Translation services are available through MOSAIC.

If you become a resident of Canada, are no longer a full-time international student, or wish to apply for a BC license, varying rules apply. Visit ICBC webpage for details.

Automobile insurance: ICBC (Insurance Corporation of British Columbia) provides universal auto insurance to all BC motorists as well as being responsible for driver licensing, vehicle enrollment and licensing. All BC motorists must have “Basic Autoplan” coverage. It provides the minimum insurance coverage that the law requires.

If you are bringing your car into BC from another province or country and are a full-time student from outside of BC who is attending school here, you may need a permit to operate your vehicle here. You must get the permit within 30 days of your arrival. It will be good for up to six months, or until your existing insurance expires, whichever happens first. If you don’t have any insurance, you’ll have to buy some.

Contact ICBC at (604) 661-2800 or toll-free at 1-800-663-3051 for more information.

**BC Identification Cards**
In order to purchase alcohol or attend events where alcohol will be served, you may need to prove that you are 19 years or older. You will need one piece of official ID with your name,
photo, date of birth and picture on it (passport, driver’s license or BCID) and a second piece of ID (Care Card, SIN, credit card, bank card). If you don’t have a driver’s license, you can obtain an official BC identification called a BCID card. You can get a BCID card at any driver licensing office.

1. Bring one piece of primary and one piece of secondary identification to any Driver Licensing office.
2. Pay the BCID card fee (about $35) and get your photo taken.

Outside Advising and Counseling:
SFU has a Human Rights office located in AQ3045 where students can turn for legal advice, counseling, and assistance if they experience professional, sexual, racial or other discriminatory harassment. There is also an ombudsman office for legal advice and mediation in the event of any case of academic or non-academic dispute.

Visas and Re-Entry Visas:
Temporary Resident Visa (TRV) or Electronic Travel Authorization (eTA):
Before you can study in Canada, you must apply to your closest Canadian Embassy or Consulate for a Study Permit.

Depending on your nationality or citizenship, you may also need a Temporary Resident Visa (TRV) or an Electronic Travel Authorization (eTA) as well. To see if you require a TRV or eTA, please visit the IRCC website.

The visa officer will process your application for a TRV or eTA at the same time as your study permit. You do not need a separate application.

A Temporary Resident Visa (TRV or entry visa) is a sticker which is placed in your passport if you are a citizen of a country which requires a visa to visit Canada. This visa is for multiple-entries. If this is a requirement for citizens of your country, a valid TRV must be shown along with a valid immigration document (study or work permit) in order to re-enter Canada from any country outside of Canada or the continental United States.

Please note that International Student Advisors do not offer advising for students on how to become permanent residents or citizens of Canada. If you are interested in this information, check the website at www.cic.gc.ca/

Tips for success!
• Check the expiry date of your study permit—mark the date 90 days prior in your calendar to remind you to renew!
• Check the expiry date of your temporary resident (entry) visa or if applicable. If you are planning to travel outside of Canada or the continental US, check the processing times on the website of the visa office abroad you plan to apply at to be certain you have enough time to get your paperwork processed.

Plan ahead!
• Your MSP (BC medical insurance) and Social Insurance Number (SIN) will also expire at the same time as your Study Permit. Make note on your calendar to renew it when you get your new permit.
• Check the expiry date of your passport too! If it will expire while you are in Canada, contact your consulate or embassy to find out how to extend it.
• Fill in Citizenship and Immigration Canada’s “Application to Change Terms and Conditions or Extend My Stay in Canada.” You may download the guide and application forms from the web at www.cic.gc.ca or pick up a copy from SFU International.
If you were previously studying at another institution in Canada, ensure that your current Study Permit is updated and valid.

When leaving the country, be sure you travel with a letter from SFU showing your continuing status.

It is your responsibility to ensure that your study permit remains valid during your studies in Canada. If you need to extend your study permit, you should apply 30 to 90 days in advance of expiration, but not earlier. Processing times might vary, depending if you submit your application online or by paper and sometimes depending on the month. As there have been long delays recently, we recommend applying 90 days in advance if possible, however the Case Processing Centre in Vegreville, Alberta will typically accept all complete applications as long as they are received before the expiration date of the study permit.

When you receive your new Study Permit, remember to renew your Care Card (Medical Services Plan) and Social Insurance Number (SIN). If you are planning to travel outside of Canada, check your Temporary Resident (Entry) Visa too, if you have one. See the related sections on the International Students website for procedures.
