The YMCA provides more than 6,000 employees with meaningful jobs and the opportunity to make a difference in the lives of individuals and the health of our communities. The YMCA works to build healthy communities. This is achieved through a shared culture and values. We recognize the contributions of our staff through innovative practices, great benefits and growth opportunities.

Nature & Scope:

The YMCA Summer Work Student Exchange is a national exchange program coordinated by the YMCA and funded by the Department of Canadian Heritage. For six weeks over the summer, the exchange takes 16- and 17-year-old youth (from Canada) to another province where they stay with a local host, hold a paid job, and practice their second official language. The youth also participate in weekly program activities organized by the Local Coordinator in their new community.

Local Coordinators provide leadership and bring the exchange to life in their local community. First, they will widely promote the program to youth and community organizations in order to recruit up to 10 young people to participate, while also securing host and job placements for them (March-May). Then they will interview, select and prepare the outbound youth participants for this experience (May-June). Finally, they will plan and deliver a full program of activities during the exchange, and support the inbound youth participants by helping them navigate change and address conflicts as they arise (July-August). Local Coordinators will be positive adult mentors for the youth with an interest in fostering strong relationships and opportunities for learning.

Local Coordinators must be full-time post-secondary students.
