Computing ID

Your SFU Computing ID is assigned automatically and provides you with access to most online services at SFU. Use your computing ID to log in to SFU Connect for email and calendaring, the goSFU Student Information System, your payroll information, e-learning systems such as Canvas, campus labs, online library services, and a variety of other services.

Email

SFU Connect

SFU Connect is the University’s integrated email and calendaring system.

SFU Global Address List

The GAL is an email directory within SFU Connect containing all SFU staff members and sponsored accounts.

Maillists

Maillists are primarily used by faculty for instructional, administrative or research-related purposes. The Courselist option automatically includes all SFU email addresses for students registered in a specified course and is updated automatically every evening so no manual updates are required.

Wireless

SFUNET-SECURE

The preferred wireless network at SFU.

eduroam

Access wireless at cooperating universities in Canada, Asia, Europe, and the United States without needing a guest account.

Storage

SFU vault

A cloud storage service for faculty, staff and students with an individual space quota of 50 GB. Files can be accessed from any desktop or mobile device.
