URGENT & EMERGENCY MEDICAL CARE
HCS will provide urgent/emergency care to all members of the SFU community. The Burnaby Health clinic will see staff and faculty for urgent and emergency care, travel medicine consultation and vaccinations, allergy injections, wound care, and first aid services. The Vancouver Health Clinic currently offers physician services to staff and faculty Tuesday to Friday.

TRAINING: SOS SUICIDE PREVENTION
In Canada, suicide ranks as the second highest cause of death (after auto accidents) amongst university-aged youth. SFU offers suicide prevention training workshops each semester. Our trainers are also available to provide customized training sessions for large and small groups of staff and faculty.

TRAINING: DEALING WITH STUDENTS IN DISTRESS
As a member of the SFU community, you are in a unique position to recognize and identify students in distress. Responding with interest and concern in a timely manner can be critical in helping students link with resources that can support and assist them. This workshop will give participants the tools and know-how to recognize when students are in distress, when they are stepping over boundaries, or when students may be experiencing mental health issues.

WORKSHOPS & EVENTS
SFU staff and faculty are invited to attend free workshops and events like Mindfulness Meditation, Yoga and creative activities part of a new initiative called Creative Collective. Check out our events calendar for a full listing of workshops and events.
