MORTEN JERVEN

POOR NUMBERS

HOW WE ARE MISLED BY AFRICAN DEVELOPMENT STATISTICS AND WHAT TO DO ABOUT IT

Book Launch
Friday April 19, 2013
6PM

SFU Vancouver Campus
Fletcher Challenge Theatre, 1900
515 West Hastings St.

"This short elegant book is fascinating and strikes me as a must-read for any social scientist interested in African political economy and policy." - Nicolas van de Walle, Cornell University, author of African Economies and the Politics of Permanent Crisis, 1979–1999.

"Poor Numbers is an important contribution to the subject... ...The book, while technical, is notable for its application of economic analysis without indigestible equations; for drawing out broader policy implications; and the use of colourful insights from the field.” - The Financial Times, February 24, 2013.
