SFU/SSHRC INSTITUTIONAL GRANTS PROGRAM

Guidelines for Application to SSHRC Small Research Grant

DEADLINES

December 15 and June 1.

PROGRAM DESCRIPTION AND GUIDELINES

SSHRC Small Research Grants support scholarly research in the contemporary arts, humanities and social sciences for expenses up to a maximum of $7,000. A lead applicant, together with one or more eligible co-investigators may apply in a single application for up to a maximum of $10,000.

Grant applications are subject to competitive adjudication by members of the SFU/SSHRC Institutional Grants Committee. Funding for the Simon Fraser University/Social Sciences and Humanities Research Council (SFU/SSHRC) Institutional Grants Program is provided by SSHRC through an annual block grant (the SSHRC Institutional Grant) based on the University's recent performance in SSHRC’s research grants programs, as well as the number of University faculty members who are eligible for funding by SSHRC. The SFU/SSHRC Institutional Grants program is administered by the Office of Research Services, under the authority of the Vice-President, Research.

Competitions for SSHRC Small Research Grants are held twice per year (Fall and Spring), and grants are awarded for a period of up to two years. Successful lead applicants and their co-investigators in any competition may not apply for further support until two years has elapsed from the competition in which they were last successful. For instance, in the Fall 2016 competition, applicants who were awarded funding in the Fall 2014 competition or earlier are eligible to apply. Those who received funding in the Spring 2015 competition or later (as either lead investigator or co-investigator) are not eligible.

At the end of the project or at the end of two years, whichever comes first, the lead investigator must file a grant completion report. Lead investigators may request an extension of the period of their grant, providing specific reasons for such an extension to the Committee Secretary.

Individuals are ineligible to re-apply for another SSHRC Small Grant before an existing grant is concluded and the Form B, Completion Report is received by the Office of Research Services (ors@sfu.ca).

Any questions regarding eligibility should be directed to the Research Grants Manager, Office of Research Services (ashlalani@sfu.ca).

GUIDELINES FOR THE ELIGIBILITY OF APPLICATIONS RELATED TO HEALTH

SSHRC introduced guidelines regarding subject matter eligibility for health-related research as of 2009. Applicants should consult the SSHRC website for full details. SSHRC Small Research Grant proposals may be eligible if there is no intent to directly or indirectly impact health. Eligible SSHRC research may include, for example:
o comparative studies in which health is not the primary object of study (e.g., social/developmental constructs such as theory of mind in normal development and autism);

o use of physiological methods and/or approaches to improve learning, teaching and curriculum development, or to investigate social/cultural processes and behaviors;

o historical and/or archaeological research where there is no intent to influence health (e.g., biographies of health practitioners or health scientists; health and hygiene in ancient civilizations);

o economic or management analysis unrelated to improved health or health care (e.g., the impact of the health-care industry on national or local economies; the impact of epidemics on the profitability of insurance companies);

o cinematic or other artistic portrayals of illness in which health promotion is not a central aim; or

o religious and/or cultural research related to dietary or other practices (e.g., fasting, vegetarianism), in which health is not the central focus of research.

ELIGIBLE APPLICANTS AND CO-INVESTIGATORS

o Priority will be given to applicants with no other sources of funds. Applicants that hold other sources of research funding, and who will have funding for more than one year after the application deadline, will have their priority lowered.

o Applications are accepted only from members of the University faculty appointed by the Board of Governors to positions which are tenured or lead to consideration for tenure in an academic Department, School, or Faculty. Note that the previous practice of accepting special case applications (e.g., from professors emeriti) has been discontinued because of high demand and limited funding resources.

o Lecturers, Adjunct Faculty, Senior Lecturers, and other Teaching Faculty appointments are not eligible to apply, neither as a lead applicant nor as a co-investigator.

o Visiting faculty, post-doctoral fellows, sessional instructors, graduate students, and research associates are not eligible to receive grants. They may be engaged by faculty members to assist in the faculty member's research, but the research must be that of the faculty member.

o Neither the lead applicant nor any of the co-investigators may hold a SSHRC Small Research Grant during the time of the new application.

o Researchers cannot participate (as either a lead or co-investigator) in more than one application per competition.

o Applications with more than one investigator require only one Chair’s evaluation from the lead applicant’s Chair or Director.

o For applications involving more than one investigator, funds will be divided equally between the lead applicant and one of the co-investigators. Applications that involve more than one co-investigator (e.g. 1 applicant + 2 co-investigators) should clearly designate one of the two co-investigators to administer half of the funds, should the application be funded. This should be clearly noted under the “Description of Team” section within the application.
RESEARCH ACTIVITIES ELIGIBLE FOR FUNDING

- Pilot projects requiring seed money in preparation for application for external research funds and research/creation funds.
- Stand-alone, small-scale research projects or research/creation projects\(^1\) which contribute to the advancement of knowledge.
- Establishment of research teams and creation of research networks\(^2\) involving participants from two or more institutions (applicants must demonstrate the need for the network in the context of their ongoing research program).
- Creation of a research tool\(^3\) if justified as an essential component of a larger research project or program.

RESEARCH ACTIVITIES INELIGIBLE FOR FUNDING

- Research that leads directly to a thesis, dissertation or other product for satisfaction of the requirements for a degree by the principal investigator. However, students employed on grants may use the products of their work in their theses.
- Dissemination of completed research where those costs are eligible for funding under the University’s Publication Grants program or through SSHRC Travel Grants.
- Artistic productions. However, see footnote 1 regarding “research/creation projects,” above.
- Cataloguing or description of original holdings of any federal agency, conversion of bibliographic records into machine-readable formats, document conservation, record management, and the arrangement of documents.
- Organizing an event.

---

\(^1\) Research/Creation refers to research activity that generates new knowledge essential to or underlying the creation of literary/artistic works. Artistic disciplines supported include: architecture, design (including interior design), creative writing, visual arts (e.g., painting, drawing sculpture, ceramics, textiles), performing arts (dance, music, theatre), film, video performance art, interdisciplinary arts, media and electronic arts, and new artistic practices. Research/creation projects must address clear research questions, offer theoretical contextualization within the relevant field(s) of literary/artistic inquiry, and present a well-considered methodological approach. This means that the research or the approach to research must contribute to the development of one or more forms of artistic expression and contribute to knowledge (which may concern the development of techniques) in the relevant discipline(s).

\(^2\) Visits for the purpose of exploring the possibility of establishing a team or network are not eligible for funding. A network proposal should: a) identify a definite research objective at the forefront of a scholarly field; b) clearly propose how that objective can be reached; c) demonstrate why the network approach is essential to reaching that objective, and d) specify monetary and/or in-kind contributions of the other participating institution(s).

\(^3\) Eligible research tools may include but are not limited to: bibliographies, indices, and catalogues of research collections; concordances and dictionaries (refer to SSHRC Research Data Archiving Policy); and materials that facilitate access to archival holdings or collections such as repository guides, inventories of a group of manuscripts or a body of archives, inventories or documentary materials, thematic guides to archival materials, record surveys and special indices.
**SPECIFIC APPLICATION GUIDELINES**

**Ethics Review and Animal Care**

Applicants whose research involves human or animal subjects must meet the requirements of the Research Ethics Board (REB) or the University Animal Care Committee (UACC), respectively. Responsibility for obtaining approval rests with the applicant. Applications may be submitted before such approval is granted, but funding will be withheld until evidence of approval is provided; approval must be applied for within 3 months of notification of the award. For a Request for Ethical Review of Research form, see the [Office of Research Ethics](#), or contact the Ethics Officer, 778-782-3447. For University Animal Care Committee application forms, see [Animal Care Services](#), or contact the Director, Animal Care Facility, 778-782-4737.

**Hourly Rates for Payment of Research Assistants**

Applicants must describe in detail the tasks or nature of participation, and provide estimated hours for persons hired in each category. Statutory welfare benefits are included in the salary ranges below.

Please bear in mind that the Living Wage for Greater Vancouver is currently (October 2016) $20.64 ([www.livingwagesforfamilies.ca](http://www.livingwagesforfamilies.ca)).

<td>$20.16</td>
<td>$36.50</td>
<td>$4.38</td>
<td>$40.88</td>
</tr>
</tbody>
</table>

“Benefits” includes statutory welfare benefits estimated to be approximately 8% of salary and statutory holiday pay at a fixed rate of 4%. Either one of these percentages may be increased by law, or in the case of welfare benefits, may vary by individual. Nevertheless, for budgeting purposes, the 12% figure should be used.

Non-students: Informants, field assistants, participants in experiments, etc. Explain why SFU students are not appropriate or cannot be hired. Use student rates adjusted for relevant qualifications except (a) for an employee of the University, in which case the appropriate University rate applies; or (b) where context justifies a different salary.

**Postdoctoral Fellows (PDFs)**

Please ensure that your application clearly justifies your plan to hire a postdoctoral fellow to participate in your project. The nature of the PDF’s role vis-á-vis the applicants’ role, training provided to the PDF and any salary paid must be outlined in your application.
Dissemination Costs

Dissemination costs such as translation and the preparation of manuscripts, bibliographies, tables, or illustrations may be supported only if they are excluded from eligibility for an SFU University Publications Grant. Payments to journals for dissemination are capped at $500.

Travel and Subsistence

Travel must be justified as essential to your research. The University Travel Policy (AD 3-02), found on the web at [http://www.sfu.ca/policies/admin/ad3-02.htm](http://www.sfu.ca/policies/admin/ad3-02.htm), states that reduced fares should be obtained whenever possible, and that accommodation expenses should be limited to reasonable amounts for the given circumstances. Justification for lodging and travel expenses must be included in the proposal. For travel to a library or archive, explain why less expensive means (e.g., interlibrary loan, purchasing microfilm or photocopies) are unworkable. Attach a website-generated or travel agent’s quote for the most economical carrier and route.

Travel in Metro Vancouver ([Metro Vancouver - Wikipedia, the free encyclopedia](https://en.wikipedia.org/wiki/Metro_Vancouver)) is not eligible for funding. Requests eligible for funding under the SSHRC Travel Grant program (i.e., for conference travel) will not be funded. Student conference travel is ineligible for support.

Clerical Services

Academic units are expected to provide routine services such as word processing and photocopying. Under exceptional circumstances these services may be funded if there is appropriate justification.

Materials and Supplies

Standard office and laboratory supplies, routine photocopying, and special cases involving unusual items or large quantities may be funded only in exceptional circumstances. Where possible, use University facilities (Learning and Instructional Development Centre (LIDC), computer assignment laboratories, etc.). Off-campus arrangements for fee must be thoroughly justified and requested at a rate applicable to the location. Justify your estimates.

Non-Disposable Equipment

Purchase of specialized equipment (e.g., microfilm readers; photographic, audio, or video equipment; computers and associated hardware and software; laboratory equipment and accessories) may be funded if justification is provided in relation to the equipment currently owned. Explain why the requested equipment:

- is essential to both this research project and your ongoing research program;

---

4 All non-disposable items (equipment, research materials, publications and documents) purchased with grant funds are the property of the University. You have priority to use those items during the tenure of your award but, when you are not using them, they must be made available for research purposes to others in the University.

5 Normally the Committee will consider a maximum request of $1,700 towards the purchase of a computer. The need for computer hardware (> $1,700) in relation to the proposed research must be strongly justified or, it won’t be considered by the Committee.
o is not available in your academic unit;

o cannot be rented (e.g. SFU Audio/Visual Services or off-campus) more economically, or rental is impractical. Please provide copy(ies) of quote(s) as supporting documentation.

**NOTIFICATION OF RESULTS**

All applicants will be notified shortly after the adjudication meeting and mailed a notification letter within two weeks of the meeting. The committee decision may be appealed only on the grounds that budget reduction or postponement renders the project unviable.
Notes and Restrictions

Use of funds A grant is for a specified project and may be used only for that purpose.

Residual or overspent budget The Committee will not cover budget overruns. Any unspent balance automatically reverts to the Fund following the end date of the grant. Requests for extensions must be e-mailed to ors@sfu.ca well in advance of the end date of the grant.

Employing family A member of your family or household may be employed under special circumstances (e.g. highly specialized skills, translation from little known languages or dialects), or in field work in remote areas where employing independent personnel entails excessive costs or is demonstrably not practical. Please justify.

Student research Research in the form of a student’s thesis, dissertation or other product for satisfaction of the requirements for a degree cannot occupy a major portion of your project. The research must be directed by an eligible applicant who is ethically able to adopt first-author (or equivalent) status on all scholarly products that result from funding.

Association dues Association dues are not eligible for support

Travel Requests for travel to support research collaboration are limited and will be reviewed on a case-by-case basis only. NOTE: SSHRC Small funding will not support travel for: 1) external/foreign collaborators; and, 2) student conference travel.

Description of research, page limit Description of research that exceeds the 3 page limit will not be read after the third page. Exception: Applications with one or more co-investigators will be allocated an extra half page if necessary.

Re-Application When an applicant re-applies with a revised project, the revised project must include a half-page which describes how the applicant addressed the Committee’s concerns.

Completion report Upon completion of the project or by the end date of the grant, whichever comes first, a Completion Report, Form B is required. In the event that the project is incomplete by the end date of the grant, the lead investigator may request a brief extension of the end date of the grant by sending a detailed email message which includes a suggested, new end date and the reasons for the brief extension. Please send the email message to the Research Grants Manager.

NOTE: The Completion Report (Form B) from the lead investigator is required at the conclusion of the project and is also required as part of the next SSHRC Small Research Grant application. Failure of the lead investigator to submit the Form B also precludes the designated co-investigator from being eligible to apply to a future competition or participate as a co-investigator on a future SSHRC Small Research Grant application. A Completion Report (Form B) is required from prior projects that were closed within the last six years. It is the responsibility of the lead applicant to provide this documentation.

Inquiries about policy Inquiries concerning policy issues may be directed to the Chair of the SFU/SSHRC Institutional Grants Committee through the Research Grants Manager in the Office of Research Services.

Grants Facilitators It is highly recommended that you contact your grants facilitator (http://www.sfu.ca/ors/contactGF.html) for suggestions on how to strengthen your proposal.

NOTE: Applications are due by the end of business hours on the deadline date. The Office of Research Services (ORS) will not accept late material or request missing documentation from either applicants or departmental chairs. Further, the SSHRC Institutional Grants Committee Chair will be made aware of all incomplete applications. At the Chair’s discretion, incomplete applications will NOT be forwarded to the SSHRC Institutional Grants (SIG) Committee for review.
