Office and Lab Space Use

*S/A Grad Computer Lab – AQ 5076*

*S/A Teaching Computer Lab – AQ 5040 (when class not in session)*

The Ellen Gee Room – AQ 5067 can be used after hours for study use or meetings. Please schedule with Graduate Program Assistant via email gradsecsa@sfu.ca or in person, at AQ 5054.

To access these rooms after hours please use codes. Codes will be distributed by e-mail at the beginning of the term, or see the Graduate Program Assistant for current codes.

PhD Assigned Shared Offices – AQ 5088, 5089, 5090. These rooms are equipped with telephones, but not with computers. For access, please see the Graduate Program Assistant in AQ 5054. Lockable study rooms in the W.A.C. Bennett Library are available for masters or doctoral students writing their theses under the following conditions:

- the student has completed all degree requirements except the thesis;
- the student will be registered full-time;
- and the student will not be employed at the university (other than as a TA/TM or research assistant).

To use these rooms, submit an Application for *Library Study Room* (see Appendix ‘C’) and a *Library Study Room Use Agreement* form (see Appendix ‘D’) to the Dean of Graduate Studies (gradstdy@sfu.ca), **six weeks prior to the start of the semester**.

TA Offices – AQ 6187 (A, B, & C)
See Graduate Program Assistant for access to these offices and key requisitions.
INTRODUCTION

This guide describes the graduate program in the Department of Sociology and Anthropology and is designed to acquaint graduate students with the policies and procedures of the department as well as provide some important governance information and links to the SFU community. It includes guidelines for the pursuit of students’ degrees, and it details the general expectations that students and faculty alike should have of each other for the timely completion of degrees.

All students are urged to activate their SFU email accounts as soon as possible so that they may receive e-mail messages concerning the department and graduate student issues, as the SFU email is the primary email that the department uses for correspondence.

1. GRADUATE GENERAL REGULATIONS: DEAN OF GRADUATE STUDIES

All students and faculty should read the ‘Graduate General Regulations’ produced by the office of the Dean of Graduate Studies (DGS). This is available at: https://www.sfu.ca/dean-gradstudies/current.html.

As these regulations are subject to change at any time, the department strongly recommends that students refer to the web version regularly. This document provides comprehensive information about Graduate Studies at Simon Fraser University -- in terms of general structure, degree requirements and regulations, guidelines for supervisor-graduate student relations, procedures and requirements for going on leave and funding available to graduate students.

This guide is not a substitute for the ‘Graduate General Regulations’ but is intended to supplement the description of the university program with a description of the departmental program and the degree requirements and expectations within the Sociology and Anthropology Department.

2. DESCRIPTION OF THE MA PROGRAM

2.1 Admission to the MA Program
Admission to the program is dependent, first, on the achievement of a satisfactory level of work in a prior degree and, second, on the ability, interest and availability of at least one faculty member to supervise the proposed topic of research.

2.2 MA Program Information
The MA program is designed to be completed within six consecutive terms (fall, spring, and summer), or two full years of study. Students are required to complete a minimum 30 credit hours to successfully complete the program.

Students may be required to complete additional coursework beyond that specified below at the discretion of their supervisory committees.
Required courses are normally completed within the first three terms of the MA program enrolment and must be completed no later than the end of the fourth semester of enrolment in the MA program. Graduates will be well prepared through course work and independent thesis research to enter PhD programs, pursue academic careers, or obtain professional positions in public, private and non-profit sectors.

Students are required to maintain a minimum CGPA of 3.0 to remain in good academic standing.

2.3 Formation of the Supervisory Committee
Students must submit an Approval of Supervisory Committee form (see Appendix ‘A’) and a Graduate Plan of Study (see Appendix ‘B’) to the graduate program assistant by December 1 of the first year; for more information please see Section 4.

2.4 Degree Requirements
The minimum requirements for completion of the degree program are: completion of required and elective course work as specified below; completion and public presentation of an MA thesis prospectus; and a thesis that will normally consist of 75-100 pages, inclusive of bibliographies, appendices and tables. At the discretion of the supervisory committee, the maximum number of pages may be increased, normally only to facilitate the inclusion of large appendices and tables. The student’s supervisory committee and a qualified External Examiner will examine the thesis, and a public oral defense will be held. Thesis Approval pages (with original signatures) are physically submitted to the library, and the theses are submitted electronically to the library for more details please visit: http://www.lib.sfu.ca/help/writing/thesis/submission/online-registration or contact the Graduate Program Assistant at gradseca@sfu.ca for more details.

2.5 Time Limits and Timelines for MA Degree Completion
The MA program is structured to facilitate degree completion within six semesters (2 years). For exceptions or appeals to this timeline, the student should consult the Graduate Program Chair and the Dean of Graduate Studies’ Graduate General Regulations, see section 1.12.2 https://www.sfu.ca/dean-gradstudies/current.html.

**Due 2 weeks after thesis prospectus presentation – Research Plan form**

---

7
Our goal in requiring this timeline is to facilitate timely completion of the degree. Timely completion requires a realistic combination of commitment, capacity, and responsibility on the part of both the students and the supervising faculty. Supervisory committees and students should meet at least twice during each semester (once at the beginning and once at the end) to monitor their programs and to encourage course completion and development. *These meetings may take place by conference call, Skype, or e-mail, as long as the goal of close collaboration and communication is achieved to the satisfaction of supervising faculty and students.*

The Graduate Program Committee *strongly* suggests that students and their supervisory committees discuss mutual expectations regarding deadlines and respective responsibilities, frankly and concretely, at the earliest possible opportunity. The Graduate Program Committee (GPC) *requires* that these agreements be set out in writing and signed by all parties. Please complete a Graduate Plan of Study (Appendix ‘B’) and refer to Section 4 for more detailed information.

Students are also urged to attend the defenses of their peers; these opportunities provide immeasurable value in terms of academic and intellectual development.

2.6 **MA Courses**

Students must complete a minimum of 10 (8 required and 2 elective) courses including:

- 6 one-semester graded courses (4 required, 2 elective)
- 2 one-semester professional development graduate seminars (graded as Pass or Fail)
- and an MA Thesis, (graded as In Progress or Complete)

**Required courses (8 in total):**

**MA Sociology:**

SA 840-1 (Graduate Seminar 1, Semester 1), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 841-1 (Graduate Seminar 2, Semester 2), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 849-5 (Selected Topics in the History of Sociological Thought), graded
SA 850-5 (Selected Topics in Contemporary Social Theory), graded
SA 856-5 (Qualitative Methodology), graded
SA 857-5 (Research Design Seminar), graded
SA 898-6 (MA Thesis), IP/CO (In Progress or Complete)

**Elective courses (2 in total):**

The additional 2 graded elective courses may be chosen from the following courses, subject to availability, and by permission of the instructor, or may be chosen from graduate courses in other departments, including those offered at other BC universities, as per the Western Deans’ Agreement, subject to approval by the supervisory committee and the Graduate Program Committee. See Appendix ‘F’ for the Western Deans’ Agreement process (retrieved at: [http://wcdgs.ca/western-deans-agreement.html](http://wcdgs.ca/western-deans-agreement.html)) and Appendix ‘G’ for the Western Deans Agreement form (retrieved at: [http://www.sfu.ca/dean-gradstudies/current/registration_status/registered.html](http://www.sfu.ca/dean-gradstudies/current/registration_status/registered.html)).
Please note the WDA paperwork must be submitted to the Dean of Graduate Studies Office at least 6 weeks before the course begins.

SA 853-5 (Readings in Sociology I), graded
SA 854-5 (Readings in Sociology II), graded
SA 855-5 (Advanced Quantitative Methods in Sociology), graded
SA 886-5 (Selected Problems in Social Analysis), graded
SA 887-5 (Selected Topics in Sociology/Anthropology), graded
LAS/SA 815-4 (Theories of Latin American Development), graded
LAS/SA 835-4 (Social and Political Change in Latin America), graded

MA Anthropology:
SA 840-1 (Graduate Seminar 1, Semester 1), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 841-1 (Graduate Seminar 2, Semester 2), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 856-5 (Qualitative Methodology), graded
SA 857-5 (Research Design Seminar), graded
SA 870-5 (Contemporary Theory in Anthropology), graded
SA 874-5 (Historical Perspectives on Anthropological Theory), graded
SA 898-6 (MA Thesis), IP/CO (In Progress or Complete)

Elective courses (2 in total):
The additional 2 graded elective courses may be chosen from the following courses, subject to availability, and by permission of the instructor, or may be chosen from graduate courses in other departments, including those offered at other BC universities, as per the Western Deans’ Agreement, subject to approval by the supervisory committee and the Graduate Program Committee. See Appendix ‘F’ for the Western Deans’ Agreement process (retrieved at: http://wcdgs.ca/western-deans-agreement.html) and Appendix ‘G’ for the Western Deans Agreement form (retrieved at: http://www.sfu.ca/dean-gradstudies/current/forms.html). Please note the WDA paperwork must be submitted to the Dean of Graduate Studies Office at least 6 weeks before the course begins.

SA 871-5 (Readings in Anthropology I), graded
SA 872-5 (Readings in Anthropology II), graded
SA 875-5 (Ethnographic Methodology: Social/Cultural Anthropology), graded
SA 886-5 (Selected Problems in Social Analysis), graded
SA 887-5 (Selected Topics in Sociology/Anthropology), graded

All coursework, except SA 898 (MA Thesis), is normally completed within the first three semesters of enrolment in the MA program and must be completed no later than the end of the fourth semester of enrolment in the MA program.

NB: All graded courses, with the exception of SA 857, are to be completed in the semester in which they are started.

Course work deferrals should be seen as exceptional, and requests should be made only with accompanying medical certificates or with obvious grounds for consideration.
2.7 MA Thesis Prospectus
A thesis prospectus should present an intellectually and/or empirically manageable thesis topic, and situate such a topic within the relevant literature. The thesis prospectus will consist of a written statement (minimum 10-15 pages double-spaced [i.e., 2500-4,000 words] exclusive of abstract, notes, appendices, and bibliography).

The thesis prospectus will be developed during the required SA 857 (Research Design Seminar). Topics of the prospectus are to include, but are not limited to, formulation of research questions; literature reviews; development and articulation of theoretical and methodological frameworks; institutional and field site ethical review processes, protocols and practices; issues in the negotiation of collaborative and participatory research relationships; time management; analysis and interpretation of research data, findings and/or experiences; effective written and oral communication.

The thesis prospectus must contain:
i. a precise definition of the topic and original research question(s);
ii. a demonstration of a certain critical awareness of pertinent literature;
iii. argumentation concerning the perceived significance of the topic in relation to existing knowledge and/or theory in the area;
iv. a statement and defense of the research methods and general methodology to be employed.

The thesis prospectus will be publicly presented upon completion of the required SA 857 (Research Design Seminar) course and subsequent approval of the supervisory committee, normally no later than the end of the first month of the fourth semester in the program.

The thesis prospectus will be prepared in consultation with the student’s supervisory committee, and must meet the approval of this committee and the course instructor of SA 857 (Research Design Seminar). Both requirements must be successfully completed in order to receive a passing grade for SA 857 (Research Design Seminar) and before proceeding to SA 898 (MA Thesis).

2.8 Thesis Research
Upon completion of SA857 and remaining coursework, MA students will be enrolled in SA 898 (MA Thesis).

Students in SA 898 (MA Thesis) must submit a signed Research Plan (see Appendix ‘E-2’) agreed upon by the senior supervisor, the committee members and the student. This Research Plan must be submitted to the graduate program assistant within two weeks of successfully presenting the thesis prospectus. This Research Plan must include dated milestones, planned meeting dates and times, and contact information for the student and committee members. It is the responsibility of students and the committee members to notify each other of any changes.
Submission of a complete Research Plan and a satisfactory evaluation by the senior supervisor will be the basis for determining the ongoing progress in this course (SA 898 – MA Thesis).

2.9 Thesis
The thesis will normally consist of no more than 75-100 pages, inclusive of bibliographies, appendices and tables. At the discretion of the supervisory committee, the maximum number of pages may be increased, normally only to facilitate the inclusion of large appendices and tables. The student’s supervisory committee and a qualified External Examiner will examine the thesis, and a public oral defense will be held. Thesis Approval pages (with original signatures) are physically submitted to the library, and the theses are submitted electronically to the library for more details please visit: [http://www.lib.sfu.ca/help/writing/thesis/submission/online-registration](http://www.lib.sfu.ca/help/writing/thesis/submission/online-registration) or contact the Graduate Program Assistant at gradseca@sfu.ca for more details.

When the first draft of the thesis is nearing completion, the student should consult with the supervisory committee about scheduling an oral defense. The senior supervisor and Committee members must submit a signed Approval of Examining Committee form (see Appendix ‘L’), with the names of the thesis Examining Committee, including the curriculum vitae of the External Examiner, thesis title and abstract, date, time and place, to reach the Dean of Graduate Studies **at least four weeks prior to the examination date.**

The defense will be chaired by the Chair (or delegate) of the Graduate Program Committee, who shall be a non-voting member of the Examining Committee. In addition, the Examining Committee shall consist of the student’s supervisory committee and a member of faculty at SFU or a person otherwise suitably qualified who is not a member of the supervisory committee. It is the responsibility of the senior supervisor, in consultation with the student, to select an external examiner (can be internal to SFU) and confirm the defense date.

**The external examiner shall be free from potential conflict of interest that may arise, for example, from research collaboration with the student or prospective employment of the student.**

The general format for an MA Thesis defense in the Department of Sociology/Anthropology is as follows:

a) introduction of candidate, External Examiner, members of the committee;
b) brief outline of steps (c) through (g);
c) request candidate to give a short (10-15 minute) summary of the argument of the thesis;
d) questioning begins with the External Examiner, proceeds to the second supervisor and, lastly, to the senior supervisor;
e) second round of questions;
f) open to questions from the floor;
g) request all but the Examining Committee to leave while the Committee deliberates on the quality of the defense and the thesis.
MA defenses generally are between 1.5-2 hours in length. Following the defense, the thesis Examining Committee will recommend one of the following possibilities:

i. thesis passed;
ii. thesis passed with minor revisions (to be completed to the satisfaction of the senior supervisor);
iii. thesis decision deferred until: ___________________ (The Examining Committee requires formal re-examination or will reach its decision by examination of the revised thesis);
iv. thesis failed (candidate is required to withdraw).

3. DESCRIPTION OF THE PHD PROGRAM

3.1 Admission to the PhD Program
Admission to the program is dependent, first, on the achievement of a satisfactory level of work in a prior degree as evidenced by transcripts, letters of reference, and proof of completion of BA or MA, as appropriate, and, second, on the ability, interest and availability of two department members, one of whom must be appointed in the field of study (Sociology or Anthropology), to supervise the proposed topic of research.

3.2 PhD Program Information
PhD programs in Sociology and Anthropology offer students a comprehensive foundation in social theory in each discipline, substantive courses in areas of research interest, and rigorous training in research methodologies, a particular strength of the Department of Sociology and Anthropology at SFU. The programs are designed to facilitate and support completion of the PhD within 4-5 academic years (12 - 15 semesters).

Years 1 and 2 (semesters 1–6) are devoted to completion of coursework, qualifying examinations, and dissertation prospectus development and defense. Years 3 to 5 (semesters 7–15) are spent conducting research and completing the dissertation. Graduates will be well prepared to pursue academic careers, and/or to take professional positions in public, private and non-profit sectors.

3.3 Formation of the Supervisory Committee
Students must submit an Approval of Supervisory Committee Form (see Appendix ‘A’) and a Graduate Plan of Study (see Appendix ‘B’) to the graduate program assistant by March 1 of the first year; for more information please see Section 4.

3.4 Degree Requirements
The minimum requirements for the degree are completion of the required and elective coursework (8 required and 1 elective), successful completion of two qualifying examinations, preparation and public defense of a dissertation prospectus, and a dissertation of approximately 250-300 pages, inclusive of bibliographies, appendices, and tables. The dissertation will be defended at a public defense and examined by the student’s faculty supervisory committee, a university External Examiner who is a faculty
member at Simon Fraser University, and an External Examiner who is a faculty member at another academic institution.

3.5 Time Limits and Timelines for PhD Degree Completion
It should be possible for students to complete the PhD within five to six years. For exceptions, the student should consult the DGS Graduate General Regulations section 1.12 Maximum Time for Completion of the Requirements for the Degree (Retrieved from: http://www.sfu.ca/dean-gradstudies/current/forms.html).

Students are expected to complete their graded courses during their first two years of enrolment. PhD students should aim to complete their qualifying examination and defend the dissertation prospectus by the end of their seventh semester in the program, and no later than their eighth semester.

Our goal for stipulating these timelines in this program of study is to facilitate a timely completion. Timely completion requires a realistic combination of commitment, capacity, and responsibility on the part of both students and supervising faculty. Supervisory committees and students should meet at least twice during each semester (once at the beginning and once at the end) to monitor their programs and to encourage dissertation development. These meetings may take place by individual telephone communications, conference calls, video-conferencing, or on e-mail, as long as the goal of close collaboration and communication is achieved to the satisfaction of supervising faculty and students.

The Graduate Program Committee strongly suggests that students and their supervisory committees discuss mutual expectations regarding deadlines and respective responsibilities, frankly and concretely, at the earliest possible opportunity. The Graduate Program Committee requires that these agreements be set out in writing and signed by all parties. Please complete a Graduate Plan of Study (Appendix ‘B’) and refer to Section 4 for more detailed information.

3.6 PhD Courses

Students must complete a minimum of 9 courses:

- 5 courses, graded
- 2 professional development Graduate Seminars, Sat/Unsat (Satisfactory or Unsatisfactory)
- one PhD Qualifying Examination course that extends over two semesters, Sat/Unsat (Satisfactory or Unsatisfactory)
- PhD Thesis, IP/CO (In Progress or Complete)

Required Courses (8 in total)

PhD Sociology:
SA 840-1 (Graduate Seminar 1, Semester 1), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 841-1 (Graduate Seminar 2, Semester 2), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 849-5 (Selected Topics in the History of Sociological Thought), graded
SA 850-5 (Selected Topics in Contemporary Social Theory), graded
SA 856-5 (Qualitative Methodology), graded
SA 857-5 (Research Design Seminar), graded
SA 897-6 (PhD Qualifying Examination), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 899-6 (PhD Thesis), IP/CO (In Progress or Complete)

Elective course (1 in total):
The additional graded elective course may be chosen from the following courses, subject to availability, and by permission of the instructor, or may be chosen from graduate courses in other departments, including those offered at other BC universities, as per the Western Deans’ Agreement, subject to approval by the supervisory committee and the Graduate Program Committee. See Appendix ‘F’ for the Western Deans’ Agreement process (retrieved at: http://wcdgs.ca/western-deans-agreement.html) and Appendix ‘G’ for the Western Deans Agreement form (retrieved from: http://www.sfu.ca/dean-gradstudies/current/forms.html). Please note the WDA paperwork must be submitted to the Dean of Graduate Studies Office at least 6 weeks before the course begins.

SA 853-5 (Readings in Sociology I), graded
SA 854-5 (Readings in Sociology II), graded
SA 855-5 (Advanced Quantitative Methods in Sociology), graded
SA 886-5 (Selected Problems in Social Analysis), graded
SA 887-5 (Selected Topics in Sociology/Anthropology), graded

PhD Anthropology:
SA 840-1 (Graduate Seminar 1, Semester 1), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 841-1 (Graduate Seminar 2, Semester 2), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 856-5 (Qualitative Methodology), graded
SA 857-5 (Research Design Seminar), graded
SA 870-5 (Contemporary Theory in Anthropology), graded
SA 874-5 (Historical Perspectives on Anthropological Theory), graded
SA 897-6 (PhD Qualifying Examination), Sat/Unsat (Satisfactory or Unsatisfactory)
SA 899-6 (PhD Thesis), IP/CO (In Progress or Complete)
Elective course (1 in total):
The additional graded elective course may be chosen from the following courses, subject to availability, and by permission of the instructor, or may be chosen from graduate courses in other departments, including those offered at other BC universities, as per the Western Deans’ Agreement, subject to approval by the supervisory committee and the Graduate Program Committee. See Appendix ‘F’ for the Western Deans’ Agreement process (retrieved at: http://wcdgs.ca/western-deans-agreement.html) and Appendix ‘G’ for the Western Deans Agreement form (retrieved at https://www.sfu.ca/dean-gradstudies/current/forms.html). Please note the WDA paperwork must be submitted to the Dean of Graduate Studies Office at least 6 weeks before the course begins.

SA 871-5 (Readings in Anthropology I), graded
SA 872-5 (Readings in Anthropology II), graded
SA 875-5 (Ethnographic Methodology: Social/Cultural Anthropology), graded
SA 886-5 (Selected Problems in Social Analysis), graded
SA 887-5 (Selected Topics in Sociology/Anthropology), graded

All graded courses, with the exception of SA 857 (Research Design Seminar), must be completed before enrolling in SA 897 (PhD Qualifying Examination). SA 897 (PhD Qualifying Examination) must be completed before enrolling in SA 857 (Research Design Seminar). Supervisory committees may, at their discretion, require additional courses to be completed.

NB: All graded courses, with the exception of SA 857, are to be completed in the semester in which they are started.

Course work deferrals should be seen as exceptional, and requests should be made only with accompanying medical certificates or with obvious grounds for consideration.

3.7 Dissertation
The dissertation will normally consist of no more than 250 – 300 pages, inclusive of bibliographies, appendices and tables. At the discretion of the supervisory committee, the maximum number of pages may be increased, normally only to facilitate the inclusion of large appendices and tables. The student’s supervisory committee, a qualified External Examiner, a University Examiner will examine the thesis, and a public oral defense will be held. Dissertation Approval pages (with original signatures) are physically submitted to the library and the dissertations are submitted electronically to the library for more details please visit: http://www.lib.sfu.ca/help/writing/thesis/submission/online-registration or contact the Graduate Program Assistant at gradseca@sfu.ca for more details.

3.8 PhD Qualifying Examination
Doctoral students will be required to complete a two-part examination on theory and methodology broadly related to their proposed dissertation topic. The course objective of SA 897 (PhD Qualifying Examination) is to provide a framework and process for students and supervisors to facilitate students’ satisfactory preparation for qualifying
examinations; and to complete qualifying examinations required for admission to doctoral candidate standing. A broad critical knowledge of the relevant literature by the student should be seen as sufficient preparation to undertake the qualifying examination.

All PhD courses, including required courses and electives, with the exception of SA 857 (Research Design Seminar), must be completed before the student may enroll in SA 897 (PhD Qualifying Examination).

SA 897 (PhD Qualifying Examination) must be successfully completed before enrolling in SA 857 (Research Design), and before a PhD dissertation prospectus may be defended.

Required process and recommended time frame:

QUALIFYING EXAMINATION (QE) PREPARATION, PHASE ONE

Summer semester, year 1 or Fall semester, year 2:

In preparation for enrollment in SA 897 (PhD Qualifying Examination), the student must prepare a QE course outline (see Appendix ‘E-1’) for discussion and negotiation with the supervisory committee. This QE course outline should be prepared during the semester previous to the initial enrolment in SA 897 (PhD Qualifying Examination).

To enroll in SA 897 (PhD Qualifying Examination) in Summer semester of Year 1 or Fall semester of Year 2, the student and supervisory committee must agree upon the details of a Qualifying Examination (QE) Course Outline (See Appendix ‘E-1’) aimed at providing a solid foundation in the areas of literature that the student will be examined upon. The QE Course Outline must include dated milestones, times and dates for committee meetings, and contact information for both students and supervisors. This QE Course Outline is to be signed by the student and their supervisor(s) and submitted to the graduate program assistant by the end of the 2nd week of the semester of enrolment, and forms the basis for the semester’s work. For example, short papers, annotated bibliographies, or bibliographic essays on specific questions may constitute elements of the QE Course Outline. The goal should be to facilitate student progress towards examination readiness, recognizing individual situations.

At the end of the first semester of enrolment in SA 897 (PhD Qualifying Examination), the student, supervisor and supervisory committee will submit a brief progress report to the GPC, via the graduate program assistant, indicating whether goals set out in the QE Course Outline have been achieved or renegotiated.

QUALIFYING EXAMINATION PREPARATION, PHASE TWO

Fall or Spring semester, year 2 of PhD program:

The student must prepare a 4 page QE Course Outline that reflects the work to be completed in Phase One, the research statement and proposed examination bibliography of approximately 40-70 titles for the qualifying exams. This QE Course Outline must be
submitted to the Graduate Program Committee, via the graduate program assistant, for re-
enrolment in SA 897 (PhD Qualifying Examination), before the end of the 2nd week of
the semester. The supervisory committee members may then request additions to the
bibliography. A final bibliography, agreed upon by student and supervisory committee
members, should be completed by the end of the first month of the second semester of
enrolment in SA 897 (PhD Qualifying Examination).

The External Committee member for qualifying examinations (a member of SA or other
SFU department) should be invited by the senior supervisor and participation confirmed
by February 15 for Spring completion of the QE.

Any changes to the examining committee after it has been confirmed must be approved
by the GPC through a written request to the GPC Chair. This request should include a
rationale for changing the composition of the examination committee.

The External committee member may add titles (books and articles) to the bibliography
proposed by the student as agreed to by the student’s supervisory committee, up to a
maximum total of 600 additional pages, and must provide this by March 1 for Spring
completion of the QE so the student has ample time to read and digest new material
before the examination. The remaining supervisory committee members may not add any
additional titles to a student’s bibliography after the External member has joined the
supervisory committee.

The student will submit a revised research statement and bibliography to the Examining
Committee by March 15 for Spring completion of the QE.

Students who intend to complete the QE in the Spring semester should plan on
undertaking the written exam in early April.

**Qualifying Examination:**

The examination will consist of 1 or 2 questions (determined by the Examination
Committee, and based on the final revised research statement and bibliography received
on March 15) to be answered in essay form and submitted **within 10 days** of receiving
the questions. The senior supervisor will provide the Graduate Program Assistant with the
exam questions and the Graduate Program Assistant will disburse the questions to the
student via email at an agreed upon time and date.

The student should produce 1 or 2 essays (determined by the Examining Committee)
totaling 40 to 50 pages, exclusive of bibliography, appendices and tables. Examination
essays should use a recognized citation style.

The student’s obligations regarding employment and family responsibilities should be
taken into account in determining the timing of the examination.
The student will email the essays to the Graduate Program Assistant and the QE examining committee 10 full days later. The student is also required to submit a hard copy of the exam to the Graduate Program Assistant as soon as possible.

The examination committee will confer and agree (majority decision required) on an evaluation within 10 days of receipt of the exam: (1) pass; (2) require oral defense before determining pass or fail evaluation; or (3) fail. The senior supervisor will inform the GPC Chair of the outcome of the evaluation. The GPC Chair will inform the student of the outcome of the exam.

In the event of a “fail” evaluation, the examination committee must provide the student and the Graduate Program Committee with written reasons for their decision.

Should a student fail the first examination they may retake the exam only ONCE. In this event, the preparation process will be renegotiated and the revised QE Course Outline submitted.

RECOMMENDED TIMELINE

*Phase 1, Summer Semester, Year 1* (if all other PhD courses completed, excluding SA 857)
- Prior to enrolling, complete the Q.E. Outline with their senior supervisor and submit it to the graduate program assistant who will grant the necessary enrollment permissions.
- At the end of the semester, the supervisor submits a brief progress report to the graduate program assistant, indicating whether the goals set out in the Q.E. Outline have been achieved or renegotiated.

*Phase 2, Fall Semester, Year 2*
- Prior to enrolling, the student should prepare a 4 page (double-spaced) research statement and bibliography, in negotiation with supervisor, and submit a copy to the graduate program assistant.
- At the end of the semester, the supervisor submits a brief progress report to the graduate program assistant, indicating whether the goals set out in the Q.E. Outline have been achieved or renegotiated.

*Phase 2, Spring Semester, Year 2*
- Prior to enrolling, the student should re-submit the research statement and bibliography with any revisions to the graduate program assistant.
- **By January 31:** A finalized bibliography should be made including the supervisory committee’s additions.
- **By February 15:** The Senior Supervisor arranges for an External Committee member (from SA or another SFU department) and confirms their participation with the graduate program assistant.
- **By March 1:** The External Committee member may add titles to the bibliography for a maximum total of 600 additional pages.
- **By March 15:** The student submits a finalized research statement and
bibliography to their supervisory committee and the graduate program assistant.

- **Mid-late March:** The Senior Supervisor informs the graduate program assistant of the Q.E. start date and provides them with the Q.E. questions for distribution via email on the start date.

- **Early – Mid April:** The student writes the Q.E.

- **Late April – Early May:** Upon a “pass” evaluation of the Q.E., the student will be informed by the graduate program assistant that they now have permission to enroll in SA857. The student may then enroll in SA857 (Research Design) for the summer semester.

### 3.9 Dissertation Prospectus and Prospectus Defense

The supervisory committee will appoint an Internal/External member who may or may not be the same SFU faculty member who served as Internal/External for the Qualifying Examination.

**a) Dissertation Prospectus**

A dissertation prospectus should present an intellectually and/or empirically manageable topic and research question and place such a topic within the framework of existing work in this area. The dissertation prospectus will consist of a written statement (minimum 10-15 pages double-spaced, exclusive of abstract, notes, appendices, and bibliography).

The dissertation prospectus will be developed during the required Research Design seminar, SA 857 (Research Design Seminar). Subjects will include, but are not limited to, formulation of research questions; literature reviews; development and articulation of theoretical and methodological frameworks; institutional and field site ethical review processes, protocols and practices; issues in the negotiation of collaborative and participatory research relationships; time management; analysis and interpretation of research data, findings and/or experiences; effective written and oral communication.

The dissertation prospectus should contain:

i. a precise definition of the topic;

ii. a demonstration of a certain critical awareness of pertinent literature;

iii. argumentation concerning the perceived significance of the topic in relation to existing knowledge and/or theory in the area;

iv. a statement and defense of the research methods and general methodology to be employed.

The dissertation prospectus will be publicly defended upon completion of the required SA 857 (Research Design Seminar) course and with approval of the supervisory committee (including the Internal/External member), generally no later than the end of the first month of the seventh semester. PhD students will not receive a passing grade for SA 857 (Research Design Seminar) until they successfully defend their prospectus.

The dissertation prospectus will be prepared in consultation with the student’s supervisory committee. The senior supervisor has the responsibility of informing the Chair of the Graduate Program Committee in writing of the intent of the student to proceed to a defense.
b) Prospectus Defense
The dissertation prospectus will be publicly defended to an Examining Committee.

PhD students must defend their prospectus in order to complete the requirements for SA 857 (Research Design Seminar) and move to “All But Defended” (ABD) status. Students register in SA 857 (section – does not meet as a class) for the Fall semester following the summer semester SA 857 seminar. The prospectus is usually defended during the Fall semester or, if necessary, at the beginning of the Spring semester.

The defense will be chaired by the Chair (or delegate) of the Graduate Program Committee. The Examining Committee shall consist of the student’s supervisory committee, together with the Internal/External member who will be a faculty member with relevant expertise not already on the supervisory committee. The prospectus defense will be open to students and faculty wishing to attend. Two weeks prior to the defense, five copies of the dissertation prospectus must be given to the graduate program assistant for distribution to the Examining Committee; one copy will be available in the department.

The prospectus defense will be done in the spirit of constructive dialogue and criticism. It is assumed that the selection of a research topic, conceptualization and focusing of the research problem, situating it within a theoretical framework, and identifying the appropriate methodological perspective and tools, are processes a graduate student goes through in close consultation with members of her/his supervisory committee. The prospectus is thus a document that emerges from this interactive-consultative process. Defense of the prospectus should not, therefore, be seen as an adversarial situation. It is instead a continuation of the collaborative process, culminating in a formal, documented stage in which the student proceeds to carry out actual research and writing.

On the basis of the written prospectus and its oral defense, the Examining Committee may recommend to the Graduate Program Committee in the Thesis Prospectus Examination Report one of the following possibilities:

1. That the student proceeds to work on the thesis.

2. That the student revises the thesis prospectus as specified by the Examining Committee and then proceed to work on the thesis (minor revisions to be approved by the senior supervisor only).

3. That the student be required to undertake major revisions (whole committee to review or second oral defense). Further coursework may also be recommended.

4. That the student is required to take further courses or other remedial measures with a view to writing and re-submitting a revised proposal for another defense. Specify.
In the event that the thesis proposal defense receives a 2, 3, or 4, a plan of successful completion must be submitted to the GPC Chair.

A student has only one opportunity to resubmit the prospectus to their examining committee. Failure to pass the prospectus upon resubmission will result in a request to withdraw from the program.

Students, who propose to undertake either the qualifying examination or the dissertation prospectus defense should, in the first instance, consult with their supervisory committee. It is the responsibility of the supervisory committee to set the process of examination and/or prospectus defense in motion as outlined above.

3.10 Oral Examination of Dissertation

When the first draft of the dissertation is nearing completion, the student should consult with the supervisory committee about the scheduling of the oral defense. The senior supervisor and committee members must submit a signed Approval of Examining Committee form (see Appendix ‘M’), with the names of the dissertation Examining Committee, including the curriculum vitae of the External Examiner, the dissertation title and abstract, date, time and place, to reach the Dean of Graduate Studies no later than six weeks prior to the examination date.

It is the responsibility of the senior supervisor to select an External Examiner and confirm the defense date. The student is responsible for providing the Graduate Program Assistant with digital copies of the dissertation at least six weeks before the defense. The dissertation defense will be public. Defenses must take place at least two weeks before the Library submission deadline, which changes each semester, in order to allow time for revisions and thesis formatting. See http://www.lib.sfu.ca/help/writing/theses website for Library rules/etc.

The defense will be chaired by the Chair (or delegate) of the Graduate Program Committee, who shall be a non-voting member of the Examining Committee. In addition, the Examining Committee shall consist of the student’s supervisory committee, a member of faculty at SFU or a person otherwise suitably qualified who is not a member of the supervisory committee (sometimes referred to as the Internal/External), together with an External Examiner who shall be specifically qualified in the field of the dissertation and not be an SFU faculty member. The External Examiner shall be free from potential conflict of interest that may arise, for example, from research collaboration with the student or prospective employment of the student. Adjunct faculty members are not eligible for appointment as an External Examiner.

The general format for a PhD oral examination in the Department of Sociology/Anthropology is as follows:

a) introduction of candidate, External Examiner, members of the committee;

b) brief outline of steps (c) through (g);

c) request candidate to give a short (15 minute) summary of the argument of the dissertation;
d) questioning begins with the External Examiner, proceeds to Internal/External Examiner and the second supervisor and, lastly, to the senior supervisor;
e) second round of questions;
f) open to questions from the floor;
g) request all but the Examining Committee to leave while the committee deliberates on the quality of the defense and the dissertation.

Following the defense, the dissertation Examining Committee will recommend one of the following possibilities:

i. dissertation passed;
ii. dissertation passed with minor revisions (to be completed to the satisfaction of the senior supervisor)
iii. dissertation decision deferred until: ___________________ (The Examining Committee requires formal re-examination or will reach its decision by examination of the revised thesis)
iv. dissertation failed (candidate is required to withdraw).

4. GRADUATE COMMITTEES, SUPERVISION AND CHOICE OF TOPIC

a) Committee Composition
The GPC encourages students to set up their supervisory committees as soon as possible. To this end, the names of faculty members who agree to supervise the student’s topic for admission purposes will be given to the student when they enter the graduate program. There is no obligation to work with this faculty member, but this contact is the logical start to the composition of a supervisory committee.

Students are required to submit an Approval of Supervisory Committee form (see appendix ‘A’) detailing the composition of their supervisory committee by December 1 (for MA students) and March 1 (for PhD students) of the first year, along with a written plan of study prepared with this committee indicating the order and the times by which each requirement of the degree program will be completed. These plans of study may be revised in light of future developments. Copies of individual plans of study, along with any revisions subsequently agreed to by the student and members of her or his supervisory committee will be provided to the Graduate Program Committee, via the graduate program assistant. See Appendix ‘A’ for the Approval of Supervisory Committee form (most up-to-date version retrieved at: http://www.sfu.ca/dean-gradstudies/current/forms.html), and Appendix ‘B’ for the Graduate Plan of Study form.

For the MA program, the senior supervisor must always be a full-time member of the department. Other members of the supervisory committee may be from other departments or universities - with the approval of the GPC. For the PhD, the senior and second supervisors must be full-time members of the department and the senior supervisor must be a member of the student’s disciplinary field (S or A); other members of the supervisory committee may be from other departments or universities
– with the approval of the GPC. If the PhD dissertation topic is essentially interdisciplinary (some areas of theory, global studies, etc.), this practice may be altered with the approval of the GPC. That is, the student in one discipline may have a senior supervisor in the other.

b) Supervision
In the DGS Graduate General Regulations (most up-to-date version available online at [https://www.sfu.ca/dean-gradstudies/current.html](https://www.sfu.ca/dean-gradstudies/current.html) the 'Guidelines for Supervisor-Graduate Student Relations' are detailed and comprehensive in the description of the selection of a senior supervisor, and the expectations that a graduate student should have of this relationship are spelled out. Similarly, the rationale for changing one's senior supervisor and supervisory committee are stipulated in the DGS Graduate General Regulations ([https://www.sfu.ca/dean-gradstudies/current.html](https://www.sfu.ca/dean-gradstudies/current.html)).

c) Professorial Rank and Supervision
It is normal practice in the department that PhD students have as their senior supervisors, faculty members who are associate or full professors. However, assistant professors who have had their contracts renewed are also eligible to supervise PhD students. MA students may have senior supervisors from any rank.

d) Choice of Topic
On application for admission to the department the student will have indicated her/his interest in a specific research topic. This expressed interest is very important in determining the choice of senior supervisor. Detailed specification of the topic should be done in conjunction with the senior supervisor so that both the student and the supervisor are clear as to the nature of the project.

Students are not obliged to remain with the topic in which interest was initially expressed, but a change in the topic must be approved by the supervisory committee. (It must be remembered that admission to the department was contingent on a faculty member's ability and willingness to supervise the student’s initial topic.)

5. PROGRESS REPORTS

Annual progress reviews are a requirement of the University under the Graduate General Regulations section 1.8.1 ([https://www.sfu.ca/dean-gradstudies/current.html](https://www.sfu.ca/dean-gradstudies/current.html)), as a means of monitoring the progress of our graduate students.

By March 20th of each year, students must submit a Student Annual Review form (see Appendix ‘H’ for MA students and Appendix ‘I’ for PhD students). This form should be filled in by each graduate student and submitted along with an unofficial academic transcript to the graduate program assistant and their supervisory committee including his or her senior supervisor (or acting senior supervisor if the senior supervisor is not on campus that semester).

Each student will then arrange with their senior supervisor (or acting senior supervisor) to hold a meeting with all members of the supervisory committee currently on campus to
review the student’s progress in the graduate program. This meeting should be held no later than April 25th.

Following this meeting the senior supervisor will append to the graduate student’s completed self-review form the *Supervisory Committee Report* indicating whether the supervisory committee deems the student’s progress to be satisfactory or unsatisfactory. Copies of the combined report (the graduate student’s self-review and the senior supervisor’s meeting report) will be forwarded to the GPC by the end of April.

The GPC will subsequently review these reports and assess each student’s progress as one of the following: G – Good, S – Satisfactory, SC – Satisfactory with Concerns, or U – Unsatisfactory. This evaluation is submitted to the Dean of Graduate Studies’ Office and becomes part of the student’s academic record. The student will receive the GPC’s final assessment and recommendations, and the Supervisory Committee Report via email from the Graduate Program Assistant by the end of May.

Students who receive an evaluation U will be required to meet, *in camera*, with the supervisory committee and the GPC. Following that meeting, the GPC will make a determination as to their evaluation of the annual progress. In this case the determination will be either satisfactory with concerns (SC) or unsatisfactory (U). If an unsatisfactory determination of their evaluation, and a decision as to whether the student will be required to withdraw from SFU or be allowed to continue will take place. Unless the unsatisfactory determination is based on CGPA, normally a detailed plan of action through which the student may improve their performance so that it may be deemed satisfactory will be developed. The timeframe for this action plan is between 4 and 6 months and its goals and assessment criteria are detailed and specific, including when an interim progress evaluation will be performed. If the decision is to allow the student to continue, whether the student was given a satisfactory with concerns or an unsatisfactory review, the detailed action plan must be communicated to the student and her/his supervisor normally within 7 days of the *in camera* meeting.

Any graduate student who wishes to comment upon the recommendation submitted by her or his senior supervisor to the GPC is entitled to do so either in writing or by requesting a meeting with the GPC.

6. **GRADUATE PROGRAM INFORMATION**

   a) **Graduate Seminar**

   All full-time graduate students must attend and actively participate in the graduate seminar during their first two program terms. In subsequent terms, attendance and enrolment is encouraged but voluntary.

   b) **Language Requirement**

   Although knowledge of a foreign language is desirable for advanced studies, there is no prescribed language requirement. However, where a language other than English is necessary for field work or reading, proficiency will be required.
c) **Co-operative Education**

In this program, students gain work experience that complements their academic studies. MA students in good standing with a minimum 3.0 GPA may apply after satisfactory completion of all required courses. Supervisory committee and Graduate Program Committee approval is required. Arrangements are made through the faculty’s co-op coordinator at least one term prior. For more details on the Co-op program, please visit [http://www.sfu.ca/coop/asse/home](http://www.sfu.ca/coop/asse/home).

7. **STYLE GUIDES FOR USE IN THE S/A DEPARTMENT**

Students must apply a recognized citation style to their written work, including term papers and theses. The following academic associations have made available style guides for students:

**Anthropology**

**Sociology**
CSAA style guide - [www.blackwellpublishing.com/cars](http://www.blackwellpublishing.com/cars)

8. **DIRECTED READINGS COURSES: GUIDELINES**

Guidelines for directed readings courses are as follows:

1. A student must receive prior agreement from a supervisor before the Graduate Program Assistant will grant them permission to register in a directed readings course.

2. Only full-time faculty members can act as supervisors of directed readings courses, unless special department permission is obtained.

3. No faculty member shall undertake the supervision of more than three directed readings courses in any one semester - unless more than three students are together pursuing the same directed readings course.

4. The name of the faculty member who has agreed to supervise the readings course, a topic and brief outline of the field(s) of literature to be covered (include a one page bibliography), and a breakdown of the grading requirements for the course should be signed by the student and the supervisor and given to the graduate program assistant by the second week of the semester in order to obtain permission to register in the directed readings course.
5. Student and faculty member should consult several times throughout the semester. The faculty member must be available and able to provide supervision or the directed readings course will not be approved.

9. **EXTRA-DEPARTMENTAL COURSE APPROVALS**

Elective courses taken outside of the department must be approved by the student’s supervisory committee and included in the Student’s *Graduate Plan of Study* (see Appendix ‘B’) Work-Plan; this approval must be given before the student enrolls in the course. Students are required to submit a course outline, name of the instructor and department, and the course requirements to the Graduate Program Assistant. Once permission has been given the student may register for the course.

10. **FINANCIAL SUPPORT**

With respect to financial support, it has been department practice to treat all students as equitably as possible, and all students are eligible to apply for support as long as they meet the terms of reference for the award.

**Teaching Assistantships (TA)/Tutor Marking Positions (TM)**
Several TA/TM positions (for both MA and PhD students) are available in the fall and spring semesters, but very few are available for the summer semesters.

(Please request the document 'Information for Teaching Assistants' from the departmental assistant or graduate program assistant. Additional TA/TM postings can be found on the Dean of Graduate Studies website - [https://www.sfu.ca/dean-gradstudies/job-postings.html](https://www.sfu.ca/dean-gradstudies/job-postings.html)

**Graduate Fellowships (GFs)**
Each year the department is allotted a number of GFs proportional to the number of graduate students in the department. These are one-semester grants from the Dean of Graduate Studies Office that are awarded to students who have applied, who qualify, and who have been ranked by the department based on status in the program, availability of other funding, and merit. The department adjudicates the applications based on the terms of reference provided by the Dean’s office.

**Research Fellowships**
Research Fellowships are sometimes available, but they are usually tied to individual faculty grants or other sources of funds in the University. The department normally plays little role in their allocation.

**Scholarships, Loans and Bursaries**
There are a wide variety of scholarships, loans and bursaries available to graduate students. Students should consult with Financial Assistance and Student Services for information on these various programs. Details are available at [http://www.sfu.ca/students/financialaid/grad-sabws/bursaries.html](http://www.sfu.ca/students/financialaid/grad-sabws/bursaries.html)
Travel and Minor Research Awards
There is a small budget available, funded by the Dean of Graduate Studies and allocated to the SA department, to assist graduate students who need financial assistance for attending conferences to present a paper or other minor research travel and/or purchases. There are, on average, two calls for applications during the academic year. For application guidelines go to https://www.sfu.ca/dean-gradstudies/awards/travel-and-research-awards/girta-tor.html

For more information on scholarships and awards, please refer the following webpage on the Dean of Graduate Studies website: https://www.sfu.ca/dean-gradstudies/awards.html

11. GRADE APPEALS

For the University regulations on the reconsideration of a grade, students should refer to the DGS Graduate General Regulations (https://www.sfu.ca/dean-gradstudies/current.html)

Normally, the first line of appeal should be to the instructor. The student should 'in a timely manner' request an explanation for the grade or a reassessment. If differences surrounding the grade cannot be resolved between the instructor and the student, then the matter should be taken to the Chair of the department -- following the procedures outlined in the DGS Graduate General Regulations section 1.16 at: https://www.sfu.ca/dean-gradstudies/current.html.

12. THE WORKING ENVIRONMENT OF THE DEPARTMENT OF SOCIOLOGY & ANTHROPOLOGY

Faculty and students should strive to be tolerant of conflicting points of view and changing perspectives. This is not to say that open and honest discussion of differences should be limited; on the contrary, frank debate of all issues pertinent to subject matters related to the disciplines is to be encouraged. In other words, no point of view is beyond criticism; indeed, constructive criticism made in a reasoned manner is an essential part of teaching and learning. Debate is to be encouraged in the spirit of academic freedom, but such freedom entails mutual respect, cooperation and understanding as the basis for interaction among members of the University. When debates and discussions become the avenue for exclusion or denigration they violate this spirit.

The University has a policy on academic freedom, which implicitly extends to all who teach and study here, and a policy on harassment, which extends to all who work or study on campus. These two policies are mutually supportive, and they should combine to provide both learning and working environment for students, faculty and staff that is free from harassment and discrimination. Such is the goal of the Department of Sociology and Anthropology.
GRAD CAUCUS

The Sociology and Anthropology Graduate Caucus is a student society run by and for graduate students in the SFU Sociology and Anthropology department. The grad caucus usually meets once a month to discuss and take action on issues that affect graduate students in our department. These issues include caucus and departmental socials and events, employment issues, discussion and approval of spending, department or university issues, travel funding, funding cuts, and elections of caucus executives. Getting involved in the grad caucus is a great way of meeting other students in the program!

Graduate students are represented at the Department Meeting and on the following Committees:
Executive
Appointments Committee
Graduate Program Committee

Student representatives are elected by grad caucus and serve to communicate student concerns and a student perspective. These representatives are required to sign a confidentiality agreement. This means that they are not in a position to report back to grad caucus; the mechanism for committee reporting is via the Committee Chair to the Department Meeting. The SA Department Constitution is available online at: http://www.socanth.sfu.ca/resources.
