Overview
The Engaged Global Citizenship Community is an immersive learning experience that combines activities, workshops, field trips, and day-to-day community building to create a cohort of engaged, critical thinkers who are well equipped to navigate through their time at FIC/SFU and beyond with a global perspective. Participants will learn from their facilitators, CA, and from each other about a wide variety of issues and perspectives to create a continuous path of learning throughout the year.

Prerequisites
- A desire to reflect, share, and build on your ideas about global citizenship
- A willingness to talk through difficult issues and ideas, even if these discussions challenge your own assumptions and beliefs.
- An openness to new concepts and perspectives related to diversity and inclusion.

Required Materials
At the beginning of the semester you will be given a journal. Please keep this journal and bring it to each workshop.

Evaluation
There are no assignments or exams in this program. Instead, students will complete activities within workshops and as organized with their CA. All that is required is attendance, active participation and an open mind!

Communication
Please feel free to talk to your CA or facilitators about any questions or concerns you have about your experience with the program. We are here to work with you to create a positive learning space for all students, so let us know if there is anything we can do to help make that happen!

Attendance Policy
Attendance is a mandatory part of this program and is counted over both semesters. Please be on time and present for all sessions. Each student is permitted up to 2 absences for personal or academic emergencies per semester. Please plan your time wisely so you reserve these absences for emergencies should you need them.

Field Trips
There are two mandatory field trips in the EGCC program, one in each semester. Please notify one of the facilitators if you have an academic conflict with a field trip (for example, an exam
scheduled during the time of the trip).

**Topics**

At the beginning of each term you will be given a schedule of workshops. Workshops are not necessarily every week, some weeks there are no workshops in order to leave room for an activity, field trip or to leave time for you to focus on midterms or exams. Throughout both semesters, we will cover the following general topics, all in referenced to our theme, Global Citizenship. These topics will be addressed through a combination of activities, field trips, workshops, and individual reflection.

- Identity & Self-Awareness
- Culture & Values
- Perceptions & Assumptions
- Intercultural Communication Strategies
- Power & Privilege
- Bias & Stereotyping
- Cultural Appropriation
- Working with Diversity & Conflict
- Building inclusive communities

This is a general guide to our topics, but it is not complete. Depending on the groups’ input, we may cover other issues that students are interested in learning more about. If you are especially keen on learning about a particular issue relating to Global Citizenship, let us know!
