ACCESSIBILITY, TECHNOLOGY AND PRIVACY

Accessibility
Participants will have the option to turn on closed captioning during the event as desired. Instructions for closed captioning will be sent to you along with the webinar link on the day of the event.

Technology requirements
This event will be presented in a participatory webinar format using Zoom. To engage fully, you will need:
   - A laptop, computer, tablet or smartphone
   - Speakers or headphones
   - Stable internet connection

Recording
This webinar will be recorded and may be made available for public viewing after the event. Upon joining the webinar, you will see a pop up message informing you of the recording. You will need to press “Continue” to participate in the event. No attendee will be video-recorded; however, if you participate by asking a question, your name may be included in the audio recording.

Protecting your privacy
To ensure that we are using Zoom in a privacy-conscious way, we are following best practices for this online event:
   - We will only circulate the Zoom link to those who are registered for the event
   - We will password protect the webinar
   - We will enable end-to-end encryption
   - We will not use attention tracking

To protect your own privacy, we suggest that:
   - You do not use your Facebook profile to log into Zoom. This is so that Zoom can’t cross reference you with your Facebook account.
   - You use a unique email address to log into Zoom. This is so that Zoom can’t cross reference your profile with the rest of your digital profiles under your email address.
   - You do not share sensitive information about yourself or others, and do not say anything you do not wish to enter the public domain during the webinar, as the webinar is public and recorded.

To protect the privacy of others, we ask that:
   - You do not record or photograph any portion of the webinar, unless permission has been requested and given by the organizers in advance.
