Defining Molecular Mechanisms Of Cell Signaling And Their Roles In Cancer

A POSTDOCTORAL position is available in the laboratory of Dr. R Hakem at the Princess Margaret Cancer Centre/University of Toronto/University Health network, Canada. The Princess Margaret Cancer Centre is one of the top 5 Cancer Research Centres in the world.

Biochemistry, cellular and molecular biology, mouse models and human tumors are used for our studies.

Highly motivated PhD or MD candidates with strong background in cell signaling and cancer are encouraged to apply.

Excellent writing and communication skills with the ability to work independently as well as a member of a team are required.

Interested applicants should submit their C.V., names of three referees and a statement of research interest to Dr. R. Hakem (rhakem@uhnres.utoronto.ca).

Please note that only qualified candidates will be contacted.
