

Name:

ID:

1. Setup: number of sessions and number of people for session. Lab location and setup. A picture of the prototype setup in the room.
2. Users: who are they? Age? Socio-economic status? Occupation?
3. Procedure: describe what you did, what did you tell the users? How did you introduce the game, if you did?
4. Observation notes: what did they say? Try to be objective and write everything with no bias.
5. Reflection: what did you learn through this session? What conclusions can you make?
