

Fall 2011 Deadlines for CIHR, SSHRC and NSERC Competitions

The chart below refers external research grant programmes which require the University's electronic submission of the SFU faculty member's application to the funding agency. Included below are the Office of Research Services (ORS) internal deadlines dates which precede the agency's deadlines. **ORS Internal deadlines are non-negotiable due to the volume of applications where many different applications have the SAME deadline date which ORS staff must submit using (3) different eSubmission platforms. Thus, your patience is greatly appreciated!**

Email all SFU SIG sheets (available from <http://www.sfu.ca/ors/sig.html>) to ors@sfu.ca. Receipt of the SFU SIG Sheet is required prior to the eSubmission of the application to the funding agency.

NOTE: When a funding agency deadline falls on the weekend, the next business day becomes the actual funding agency deadline date. This matter has been taken into account (see below).

NOTES:

All applications must be approved by ORS using an SFU Research Funding Application Signature Sheet ("SFU SIG Sheet") prior to their submission. This form can be found on the web at <http://www.sfu.ca/ors/sig.html> and must accompany a copy of the application (unless otherwise stated) for ORS records. Applicants are strongly advised to allow sufficient lead time for the proper consideration at each level.

ORS eSubmission ("eSUB") to the funding agency: Due to the anticipated high volume of applications which must be electronically submitted by ORS to each funding agency, we request your observance of the internal ORS deadlines.

NSERC, RTI, Category 3: SFU applications **require a letter of support from the VP Research**. Thus, applicants must contact the VPR office ASAP and at least by 19 SEPT 2011.

NSERC & SSHRC: SFU applicant must change the status of their application from "in process" to "submit" in order for ORS staff to eSUB the application to NSERC & SSHRC.
