Summary of Research Interests

I am interested in how people make memory-based decisions about faces, particularly in the context of becoming an eyewitness to a crime. My research program is aimed at understanding 1) the ways encoding conditions influence recognition; 2) how social and cognitive factors affect decisions about lineups (arrays of faces or people); and 3) the internal cognitive processes involved in making a lineup decision. I also have a secondary line of research exploring factors involved in friendly fire.

Education

- 2010 PhD in Psychology (Brian, Behavior, and Cognitive Science), Queen's University
 - *Testing Applied Lineup Theory*
- 2006 MA in Psychology (Social), Queen's University
 - *Characterizing Visual Behavior in a Lineup Task*
- 2004 BSc. (Honours), Industrial Internship Program in Psychology, with first class Honours, University of Alberta
 - *Where Have I Seen Her Before? Accuracy Pointing to Previously Viewed Locations*
- 2001 BA (Criminology), with distinction, University of Alberta
