

SIMON FRASER UNIVERSITY/MAPLES ADOLESCENT TREATMENT CENTRE
INFORMED CONSENT TO USE VIDEOTAPE FOR EDUCATIONAL PURPOSES

The Maples Adolescent Treatment Centre and Simon Fraser University in conjunction with your local CONNECT Parent Group videotapes each session so that we can provide supervision to the group leaders and to evaluate the program.

This form is to request your consent to allow us to use parts of the videotaped sessions for **another** purpose; that is to show selected portions of the videotapes to other professionals who want to learn more about the CONNECT Parenting Program and/or are in training to become CONNECT Parent Group Leaders.

Helping professionals learn new ways of working with parents and families is not easy. It helps to use videotapes that show how parents respond to information and exercises in the sessions and to identify what group facilitators do that makes some sessions go well but make other sessions less successful.

Your consent will allow us to use the videotapes in training, workshops, and/or conferences. Portions of the videotaped sessions may include your voice and/or your image. If you do not consent to the use of the videotapes for teaching purposes we will ensure that you do not appear in any videotape material we select. You may withdraw your consent to the use of videotape for educational purposes at any time by contacting the Director of the Maples Adolescent Treatment Centre, 3405 Willingdon Avenue, Burnaby, B.C., V5G 3H4, ph. 604-660-5800.

Please check one:

☐ Yes, I consent

☐ No, I do not consent
