

## IAT 102 Graphic Design

### Assignment: Grid Study 1: Composition

(to be completed individually over the break)

In this assignment you will work with the grid as a guiding structure for compositions.

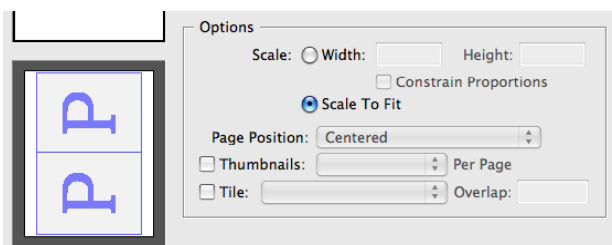

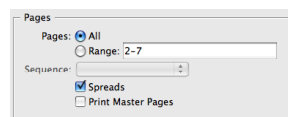

1. Download the InDesign-document IAT102\_Lab06\_gridstudy\_1.indd

2. In this document, you will find black and grey shapes in a 3 column grid-structure.

3. Create new creative arrangements of the black and grey shapes. All shapes have to align within the grid. Black, grey and white have to play an equally significant role. Remember the “figure ground assignment” from the first week, and look for well-balanced and interesting compositions.

### Deliverables

**Print 3 spreads and bring to the lab, after the break.** Every spread (=2 pages) has to be printed on 1 sheet of paper. This is an individual assignment, write your name, lab section and student number on all the 3 sheets.

**Look for the second grid-assignment, next Monday.**
