

IAT 102 Graphic Design

Assignment: Grid Study 3: White space

(to be completed individually over the break)

In this assignment you will work with the grid as a guiding structure for typographic compositions.

1. Download the InDesign-document IAT102_Lab08_gridstudy_3.indd
2. In this document, you will find black shapes and a text-paragraph, and in a 3 column grid-structure.
3. Create page-compositions. Use different font-sizes and styles for titles and subtitles, in order to give your text a structure. You are also allowed to change leading, and top- / bottom-margins, but not the left and right margins. All shapes have to align within the grid. The whole text has to fit on the page.
Look for well-balanced and interesting compositions.

Deliverables

Print 3 spreads and bring to the lab, after the break. Every spread (=2 pages) has to be printed on 1 sheet of paper. This is an individual assignment, write your name, lab section and student number on all the 3 sheets.
