

illustrator workshop part 1: Banana Logo Tutorial

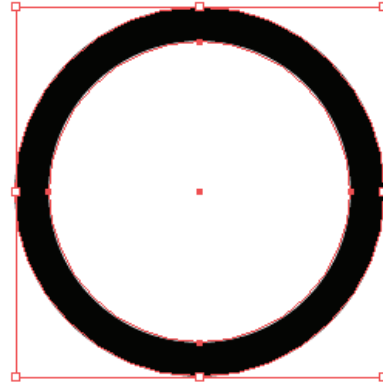

Step 11) Select **both** Circles then,

From the "control toolbar" on the top select

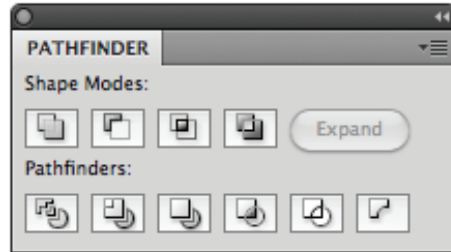

select "horizontal align centre"
select 'vertical align centre'

The circles should now be aligned.

Step 12) Now we want to open "Pathfinder"

Window > Pathfinder

Select the "divide"  option

Step 14) Select the 'Direct Select Tool'  from Tools

Click on the inner circle

Press the 'delete' key on your keyboard

Note:

You can use and object as long as it is a path,

Instead of erasing the background you can
also change the color

Step 15) Place the two objects on top of each other.

Then select both objects and 'group'
Objects > Group

Resize if needed make sure to hold 'shift' to keep the proportions the same.
