

inDesign workshop page 1

Before we get started with the tutorial we first need to create two folders on the desktop.

Create folder called 'Banana Layout'
Create folder inside Banana Logo called 'images'

Step 1) Open inDesign

Step 2) Create a new inDesign file

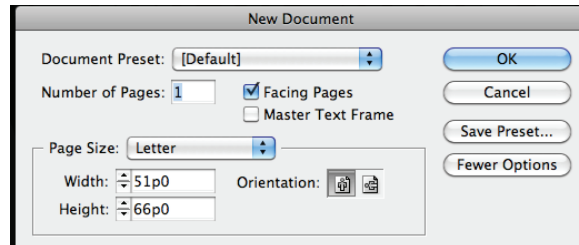

File > New

In the following fields enter:

Name: Bananalayout

Set to: letter

Check facing pages

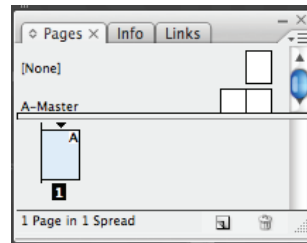

Step 3) Ruler pica to inches

Right click on rules and select inches
Do this to both rulers

Step 4) Pages > new Page

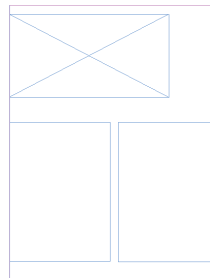

Add 3 pages

Make Wire frame layout

Step 5) Image Box

select imagebox tool
Click and drag to create box

Step 6) Text Box

select Text Tool
Click and drag to create box

Step 7) Import a photo to imagebox

Click on Imagebox you made before

file > place

Select 'banana bunch'

Step 8) Import a photo to second page

file > place

Select: Banana trees

RESIZE control and shift to resize

Cropping normal select tool to crop

Direct select to move the image

Step 9) Linkng textbox

Click white box on the left text box
Then, click on next textbox on the right

Step 10) Create Title

With the Text tool Click and type a title

Next, highlight the title

Type > Create outlines

Step 11) Spell Checking

edit > spelling > checkspelling
