1. Is there a clear research question that is answerable in the space of a 10-15 page paper and 1 semester?

2. Do the steps for the paper cover the key paradigms and logical steps to resolve them? What steps or factors are missing?

3. Are the questions/issues for each step capable of being answered with data available to the researcher?

4. Is there a logical cumulative flow that will lead to a clear conclusion that adds to our knowledge?

5. Is there symmetry among the different steps?

6. Any other suggestions
