## **Chapter 1: Research Plan**

|   |           |
|---|-----------|
| <b>1.0 Introduction to Biofuels</b>                               | <b>1</b>  |
| <b>1.1 Introduction to Brazil</b>                                 | <b>2</b>  |
| <b>1.2 Framework for Analysis</b>                                 | <b>4</b>  |
| <b>1.21 Research Question</b>                                     | <b>5</b>  |
| <b>1.22 Structure of Document</b>                                 | <b>6</b>  |
| <b>1.3 General Literature Review</b>                              | <b>6</b>  |
| 1.31 Political and Institutional Requirements                     | 7         |
| 1.32 Economic Costs and Benefits of Brazil's<br>Ethanol Program   | 10        |
| 1.33 Sustainability Requirements                                  | 13        |
| 1.34 Figure: Ethanol Production from<br>Sugarcane Crops           | 13        |
| 1.35 Qualifying Sugarcane vs. Corn                                | 14        |
| 1.35 Table: Best and Worst Case Scenario<br>for Ethanol Energy    | 16        |
| 1.37 Sugarcane Ethanol and Carbon<br>Abatement                    | 17        |
| <b>1.4 Conceptual Framework &amp; Qualitative<br/>    Methods</b> | <b>19</b> |

## **Chapter 2: Brazilian Sugarcane Ethanol**

### **2.0 Political and Institutional Components**

|  |           |
|--|-----------|
| <b>In Brazil's Ethanol Matrix</b>                        | <b>23</b> |
| 2.1 Phase 1: Birth of ProAlcool                          | 23        |
| 2.11 Phase 2: Production in Full Swing                   | 24        |
| 2.12 Phase 3: Troubled Times Met                         |           |
| With Liberalization                                      | 26        |
| 2.13 Institutional Framework                             | 30        |
| 2.14 Table: Institutional Framework from                 |           |
| ProAlcool until 1999                                     | 31        |
| 2.15 Revitalization of the Industry                      | 32        |
| 2.16 Summary   | 33        |
| <br>   |           |
| <b>2.2 The Economic Performance of Sugarcane Ethanol</b> | <b>35</b> |
| 2.21 Key Economic Indicators                             | 35        |
| 2.22 Table: The Sugarcane/Ethanol                        |           |
| Sector in Brazil 2006-2009                               | 36        |
| 2.23 Table: Brazil's Sugar Production                    | 37        |
| 2.24 Table: Sugarcane Production and                     |           |
| Costs Internationally                                    | 38        |
| 2.25 Why is Brazilian ethanol cost-competitive?          | 38        |
| 2.26 Table: Comparison of the Production Costs           |           |
| Of Ethanol   | 39        |
| 2.27 Figure: Evolution of Ethanol Exports                | 39        |
| 2.28 Present Status and Projections of the Industry      | 40        |
| 2.29 How are prices governed?                            | 41        |
| 2.30 Energy Matrix                                       | 42        |
| <br>   |           |
| 2.31 Table: Electricity Sales from Co-generation         |           |
| At Sugar Mills   | 43        |
| 2.32 Figure: Brazilian Energy Matrix                     | 44        |
| 2.33 Fuel-Flex Vehicles                                  | 44        |

|   |           |
|---|-----------|
| 2.34 Table: Flex Fuel Market Grows  | 45        |
| 2.35 Job Creation   | 46        |
| 2.36 Government Subsidies   | 47        |
| 2.37 FDI  | 47        |
| 2.38 Government Financing Arms  | 48        |
| 2.39 R & D, Investment  | 49        |
| 2.40 Infrastructure   | 50        |
| 2.41 Expansion  | 50        |
| 2.42 Summary  | 51        |
| <b>2.5 The Sustainability of Brazilian Sugarcane Ethanol</b>                        | <b>52</b> |
| 2.51 The Availability of Land and Deforestation                                     | 52        |
| 2.52 Table: Yields and Areas of Corn and Sugarcane<br>for Ethanol Production (2006) | 53        |
| 2.53 Figure: Distribution of Land 2007  | 54        |
| 2.54 Figure: Sugarcane Producing Regions in Brazil                                  | 55        |
| 2.55 The Net Energy Balance   | 57        |
| 2.56 Table: Energy Balance  | 58        |
| 2.57 GHG Reductions and LCA   | 58        |
| 2.58 Table: The Energy and GHG Balance of<br>Ethanol Production                     | 59        |
| 2.59 Table: Energy Inputs for Sugarcane Production                                  | 59        |
| 2.60 Local Impacts  | 61        |
| 2.61 Local Air Pollution  | 63        |
| 2.62 Environmental Legislation  | 63        |
| 2.63 Environmental Certification of Sugarcane Ethanol                               | 64        |
| 2.64 Brazilian Sugarcane Ethanol and Current<br>Environmental Procedures            | 66        |
| 2.65 2 <sup>nd</sup> Generation Biofuels  | 68        |
| 2.66 Summary  | 69        |

## **Chapter 3: Paraguay in Focus**

|  |           |
|--|-----------|
| <b>3.0 Introduction</b>  | <b>71</b> |
| 3.1 Brief Political History  | 72        |
| 3.11 Social and Economic Indicators  | 74        |
| 3.12 Figure: Paraguay's Country Profile 2010   | 77        |
| 3.13 Agriculture   | 77        |
| 3.14 Why Sugarcane is a Good Fit for Paraguay  | 78        |
| <br>   |           |
| <b>3.20 Political and Institutional Components that Govern<br/>the Value Chain in Paraguay</b> | <b>80</b> |
| 3.21 Brief History of Biofuels in Paraguay   | 80        |
| 3.22 Institutional Organization and Challenges   | 81        |
| 3.23 The Role of Petropar  | 85        |
| 3.24 Summary   | 86        |
| <br>   |           |
| <b>3.30 The Economic Costs and Benefits of Ethanol Production<br/>in Paraguay</b>              | <b>88</b> |
| 3.31 The Energy Market   | 88        |
| 3.32 Figure: Fuel Market in Paraguay   | 89        |
| 3.33 Ethanol and Sugarcane Production  | 89        |
| 3.34 Figure: Trajectory of Ethanol Production  | 90        |
| 3.35 Figure: Actual Production of Ethanol  | 90        |
| 3.36 Figure: Capacity of Ethanol Production  | 91        |
| 3.37 Table: Trajectory of Sugarcane Production   | 92        |
| 3.38 Table: Production Costs in the Ethanol Industry   | 92        |
| 3.39 FFV's   | 93        |
| 3.40 Job Creation and Skilled Labor  | 94        |
| 3.41 Government Financing  | 95        |
| 3.42 R & D, Investment   | 96        |

|   |            |
|---|------------|
| 3.43 Summary                                    | 97         |
| <b>3.5 Sustainability Requirements</b>          | <b>99</b>  |
| 3.51 The Availability of Land and Deforestation | 99         |
| 3.52 Environmental Certification                | 100        |
| 3.53 Summary                                    | 101        |
| <b>3.6 Concluding Remarks</b>                   | <b>103</b> |
