1. Well laid out with high feedback.  
Statistic analysis was not as in depth as expected
2. – textbook was weakest feature  
– wish PowerPoint had more detail  
– maybe use online sources for SPSS tutorials + textbook
3. 1) Best Features Were Lots of Feedback and Knowledgeable about Subject.  
2) Course was very Relevant and Helped Get Expertise w/Stats & Public Policy  
3) Prof took Feedback on Course to Improve Next Time.
4. Strongest – knowledgeable  
weakest – not giving enough time to think about answer before asking for response  
– too much emphasis on stats.  
– great that there is no final, less pressure; could concentrate on paper.
5. – The prof certainly stimulates more interaction than is found in other courses – cold calling et al  
– Overall it really seemed like he cared about the learning his students were doing – in communicated relevant studies etc.
6. It doesn't matter because no one cares about what students think  
Again ↑
7. Nope
8. The instructor is very clear, informative, excellent!  
Good course!
9. Hira is a challenging and highly rewarding prof. He has been one of the best profs I have had at SFU. The university admin would be wise to listen to him.
10. Awesome prof. Very well prepared and clearly cares about teaching and his students.  
Did a very good job of gauging class level and comprehension. Very fair.
11. Passionate about the course and attentive to lecture.  
The text book.
12. Dr. Hira is an excellent instructor. He was good at challenging us to think and promoted class discussion.
13. 1. The instructor was always prepared and available for help, with lots of real life examples.  
Some of the material could have been communicated in a more simple fashion.  
2. The course was very practical in some respects. However there could have been more instruction.
