Weekly Exercise 10 – myColourModule

Problem statement:
Add another colour related function to the module myColourModule we created in our program Combining two images

How to proceed:
• Start with the program Combining two images: https://repl.it/repls/SaddlebrownRareCharacters (clone or copy it onto a new Repl.It tab) and add your function to the module myColourModule
• Add code to the Main part of the program in order to test your function
Submission

- Due this Thursday, July 11 at 3pm
- If you have any issues or questions, post them on Piazza or ask a TA during Open Lab hours or the instructor during her office hours
- You must work on your own.
- No late submission will be accepted!
- Make sure you test your link – if it does not work, the TA cannot mark your work and you get 0. 😞
A Note about CourSys

• You can submit your work as often as you wish on CourSys, i.e., you can make many submissions.
• The last submission is the one that is marked – make sure your last submission is not late!

• Your grade and comments can be found on CourSys:
