

Species in BC

*Aedes*¹ *aboriginis* Dyar
Aedes alopnotum Dyar
Aedes campestris Dyar & Knab
Aedes canadensis (Theobald)
Aedes cataphylla Dyar
Aedes cinereus Meigen
Aedes communis (Degeer)
Aedes diantaeus Howard, Dyar & Knab
Aedes dorsalis (Meigen)
Aedes euedes Howard, Dyar & Knab
Aedes excrucians (Walker)
Aedes fitchii (Felt & Young)
Aedes flavescens (Mueller)
Aedes hendersoni Cockerell
Aedes hexodontus Dyar
Aedes impiger (Walker)
Aedes implicatus Vockeroth
Aedes increpitus Dyar
Aedes intrudens Dyar
Aedes mercurator Dyar
Aedes melanimon Dyar
Aedes nevadensis Chapman & Barr
Aedes nigripes (Zetterstedt)
Aedes pionips Dyar
Aedes provocans Walker
Aedes pullatus (Coquillett)
Aedes punctor (Kirby)
Aedes riparius Dyar & Knab
Aedes sierrensis (Ludlow)
Aedes spencerii spencerii (Theobald)
Aedes spencerii idahoensis (Theobald)
Aedes sticticus (Meigen)
Aedes togoi (Theobald)
Aedes vexans (Meigen)
Aedes vexans nipponii (Theobald)

Anopheles earlei Vargas
Anopheles freeborni Aitken
Anopheles punctipennis (Say)

Culex pipiens L.
Culex tarsalis Coquillett
Culex territans Walker

Culiseta alaskaensis (Ludlow)
Culiseta impatiens (Walker)
Culiseta incidens (Thomson)
Culiseta inornata (Williston)
Culiseta minnesotae Barr
Culiseta morsitans (Theobald)

*Mansonia*² *perturbans* (Walker)

Adjacent species to look for:

[Presumed nearest locality]
Aedes albopictus (Skuse)
[Imported tires, Seattle]
Aedes churchillensis Ellis & Brust
[Alberta border, Peace R.]
Aedes japonicus japonicus (Theobald)
[Snohomish County, WA]
Aedes nigromaculis (Ludlow)
[Alberta border & central WA]
Aedes punctodes Dyar
[Coastal salt marsh, AK]
Aedes schizopinax Dyar
[Alberta border]
Aedes ventrovittis Dyar
[High Cascade Mtns, WA]

Anopheles occidentalis Dyar & Knab
[Whatcom, Okanogan & recently Snohomish WA]

Culex apicalis Adams
[Snohomish, Grays Hbr. & recently Cowlitz WA]
Culex boharti Brookman & Reeves
[Lincoln & recently Cowlitz & Skamania WA]
Culex restuans Theobald
[possibly Island County WA and N. Idaho?]
Culex stigmatosoma Dyar {previously *peus* Speiser}
[Southern WA]
Culex salinarius Coquillett
[Pierce County WA]

Culiseta particeps (Adams)
[Western WA]

¹Reinert's (2000) proposal that *Aedes* spp. listed here, other than (*Aedes cinereus*, (*Aedimorphus*) *vexans* and (*Stegomyia*) *albopictus*, should be placed in a new genus, *Ochlerotatus* is under review and his more recent recommendations to raise more subgenera of *Aedes* including *Stegomyia* to generic rank (Reinert *et al.* 2004) has not been accepted by most authorities.

²Ronderos and Bachmann (1967) with little reason, raised *Mansonia* to the rank of a tribe and changed the subgeneric name *Coquillettidia* to that of the genus of our only Canadian species, *perturbans*. Like Wood, Dang and Ellis (1979) I reject this name.
