

DESIGN EXPERIENCE *design competition*

4tomorrow competition (2014 march-july)

tools : Illustrator + Photoshop + Research

role : contestant and designed 10 posters

siggraph competition (2014 march-may)

tools : Illustrator + Photoshop + Research

role : designed 1 poster and got into top ten

spatial design charatte (2014 april)

tools : Illustrator + Photoshop + Research

role : project manager and graphic designer came in 3rd

process : For all my competitions, I learned to do research prior to illustration. Through my design process, I learned to seek the problem (bringing awareness), research about it, ideate a solution, prototype various versions and finally build up a finalized version. Lastly, I analyze it to ensure the message was clearup properly.

DESIGN EXPERIENCE *internship and school*

IECC (2015 april - december)

tools : HTML + CSS + JQUERY + CMS + Illustrator + Photoshop + Research

role : designer + innovation specialist + international liasion + project manager

process : I learned how to multitask, during this internship. My work invovle from designing posters and coding websites to managing events and projects. I learned that design process apply to not only design but also to work ethic.

web design & development (2015 janurary - april)

tools : HTML + CSS + JQUERY + CMS + Illustrator + Photoshop + Research

role : web developer and graphic designer

process : learned to seek for help when I have issues. Better yet, I learned to seek for solution before going straight for help and I notice that I am learning for myself and to improve on my technical skills.

Enactus - Banner Bags (2014 september - Present)

tools :Illustrator + Photoshop

role : designer

process : I designed various print and digital materials for workshop led by student organization. Designed in accordance with existing material to achieve branding consistency and attract new participants to the program.
