

Here are the practice questions for chapters 3 and 4. All are taken from the first midterm in the indicated year.

As usual, my advice is to spend some serious time writing out your own answers before you look at my answers.

You will notice that some of the questions are very similar to each other (it is hard to think of totally new questions every year!). If you feel that you understand a question because it is similar to one you already did, that's fine, just skip it.
