Here is a list of practice questions for consumer theory (chapters 7-9). All questions are taken from the second midterm in the indicated year.

You should be able to do all non-starred questions after I finish my lectures on chapter 8. Keep in mind that in chapter 8 you only need to read sections 8.1, 8.2, 8.3, 8.4, and 8.6. I will not be covering the other sections in this chapter.

In some past years I covered revealed preference in chapter 8. I'm not doing that topic this year, so you can ignore any previous exam questions on revealed preference.

The questions with stars require an understanding of chapter 9.

As usual, don't read the questions and immediately read the answers. Spend some significant time writing out your own answers before you look at mine.
