STAT 270 Lecture 9
Spring 2015
28 September 2015

- Went over midterm briefly.

- Covered slides 26 to 29 and started on counting.

- I will finish to the end of 3.5 on Wednesday.

- I have finished to the end of 3.4.

- Handwritten slides.

- Key jargon, ideas:

  - Independence of several things requires many equations to hold. I showed example of 3 pairwise independent but not independent events.

  - Independence can be an assumption or a conclusion.

  - Think about the English language use of "independent"
