

Instructions for MasteringPhysics Registration

1. Go to the MP website: <http://www.masteringphysics.com>
2. Click on "New Students" under Register, and then follow the instructions. Of course you'll need an access code (if you buy a new text book, the access code is included. If you buy a used book, you would need to buy the access code separately).
3. When you need to Create a Login Name, use your sfu email address. i.e., **use your sfu email address as your MP login in name**. This is very important because nobody can change that afterwards. We will use your login ID to get your marks from MP. If you use other IDs, we would have trouble getting your records.
4. After you login, enter your 9-digit sfu ID as your student ID and " **MPCHEN73122**" as the course ID, click on "save".
