

Using your i>clicker in class

You are required to purchase an i>clicker remote (through the bookstore) for in-class participation and voting.

Please bring your clicker to each class.

i>clicker is a response system that enables you to respond to questions I pose during class. You will be graded on that feedback and/or your in-class participation.

In order to receive this credit, you will need to register your i>clicker remote by Friday Sept 10, 2010. You must have come to class at least once and voted on at least one question, in order to complete this registration properly.

How do you register?

Once you have voted on a question in my class:

1. Go to www.iclicker.com/registration.
2. Complete the fields with your first name, last name, student ID, and remote ID.
 - a. Your student ID should be **the 9-digit SFU student ID**.
 - b. Your i>clicker remote ID is found on the bottom of the back of your i>clicker remote.

How will we use the clicker?

- I pose questions on the screen during lecture.
- You answer using your i>clicker remote.
- Class results are tallied.
- I display a graph with the class results on the screen.
- We discuss the questions and answers.
- You get points (for participating and/or answering correctly)!

How do you vote?

Turn on the clicker by pressing the bottom "On/Off" button.

A blue "Power" light will appear at the top of the remote.

When I ask a question in class (and start the timer), select A, B, C, D, or E as your vote.

I may also ask you to talk about your possible choice/answer with your neighbor or in groups.

How do you know your vote was received?

Check your "Vote Status" Light:

✓ **Green light** = your vote was sent **AND** received.

✓ **Red flashing light** = you need to vote again.

Not sure you saw the light? Just vote again.

Want to change your vote? You can vote again as long as the timer is still going.

Note:

Until you register your i>clicker, your responses are tied to your clicker remote ID (located on the back of your clicker), rather than to you. When you do register, your previously recorded voting responses will be assigned to you.

If you are unable to register, please see me as soon as possible.
