BUS 411 FORMING GROUPS

– Read the presentations scoring link on the class webpage to understand the implications of picking groups

-- Groups will be formed by each student submitting by email to **poitras9@sfu.ca** a list of **4** preferences for the presentation sector. Groups of four (possibly five) will be formed based on placing individuals into the group with highest preference.

-- Preferences will be processed in the order received at the email address. If a group you selected first is already full when processed or there are not enough with preference for that sector, a second choice will be considered, etc. It is not necessary to do the stocks listed in each sector, one or more new ones can be used. The list of possible sectors is given below.

-- If you wish to be placed in a group with a specific individual – state this in your submission

Example:
1. Global Gadgets
2. New Sector
3. Payments
4. Don't Care

Recent Previous Presentations (NOTE: 3 COMPANIES PER SECTOR)
Global Gadgets (AAPL, GOOG, MSFT)
Payments (V,AMX, MA)
