

IAT 102 Graphic Design

Assignment: Grid Composition

In this assignment you will work with a modular grid a structuring agent. You will create 4 variations using the SAME elements (pictures, text, lines, colours, etc.)

The Assignment:

1. Create a modular grid in Indesign.
2. Create a composition using a mixture of pictures and text. You may also include lines, areas of colour, texture, pattern, etc. as structuring elements.
3. Your composition will have the following qualities: assymetrical balance, clear visual heirarchy and effective use of white space.
4. Make 4 versions using the same elements as in your first composition.
5. All 4 copies must be printed and stapled together. Unstapled submissions will not be accepted.
