

Sheppard's Unofficial Business 478 Grade Distribution for Spring 2021

- About 10% of the class at the lower end of the scale may have lower than expected grades.
- About 10% of the class at the upper end of the B+ range may have lower than expected grades due to where the break is in the distribution.
- About 3% of the class may get higher grades than expected at the upper end of the scale.
- So, I'm hoping 80% of you end-up about where you expected.  
It's a hope since less-than-pleased administrators may not be all that happy with this distribution (this may be a particular hazard if you are at the lower end of the A- range).
- There may be some delay on getting this into the official grades list because of Adminis-trivia...
