**TECHBYTES**
technical peer educators
sharing knowledge + experience

Skills Expo by Techbytes

ON SIAT

Date: Every Wednesday
Time: 12:30 to 2:30 PM
Where: SUR 3140

This is an opportunity for peers of all years to get together and teach and learn from each other. Topics include 3-D modeling, how to use Illustrator, Photoshop, InDesign, and the rest of the Adobe Suite, video editing, learning programming in Python or Java, etc. It saves you hours of frustration in learning tools and programs, plus, you get to meet fellow students who share the same interests.
