Guidelines for Departmental Seminars

For partial fulfilment of the degree of Ph.D. in Biomedical Physiology & Kinesiology

Purpose:

1) To provide an opportunity for students to develop their communication and presentation skills.

2) To provide a forum for students to inform members of the Biomedical Physiology & Kinesiology Department about the student's research.

Topics:

1) Two seminar topics to be approved by the student's senior supervisor.

2) At least one topic should be directly related to the student's thesis research.

Duration:

1) The Departmental Seminar (s) shall typically be 30-40 minutes in duration, followed by an opportunity for the audience to ask questions.

Audience:

1) At least one of the seminars is to be presented to the Biomedical Physiology & Kinesiology Department during the regularly scheduled department seminar times.

2) The Graduate Program Committee encourages students to participate in appropriate scientific meetings and conferences. As such, approval of formal conference presentations, in lieu of one of the departmental seminars will typically be granted.
