CHRYSTA LEARNING CENTRE

Opening September 2017

Our mission is to enable students to reach their full potential in an accepting, inclusive and safe environment, using the principles of Applied Behavior Analysis (ABA).

ABA focuses on creating an enriched teaching environment that motivates learners. In practice, this means that we make learning fun for our students!

We provide individualized learning plans for every student, and 1:1 teaching.

Our strength lies in teaching students with special needs while setting the standard in excellence.

WE TEACH
Social Skills
Leisure Skills
