Welcome to SFU! Here are a few useful bookmarks

If grad school were a game, the Graduate General Regulations would be SFU’s rules. The ‘GGRs’ are in the Academic Calendar, which, at SFU is published 3 times per year. Changes in the regulations normally apply to all graduate students. It is recommended that you review the ‘GGRs’ when you are going to supervise a grad student.

The program requirements for your graduate programs are also in the Academic Calendar in the ‘Academic Programs’ section. You can look up the field of study in the alphabetical list and then find the links to the requirements for the graduate programs.

The application for admission is online, and the system that you will use to review applications is called OASIS. It is reasonably intuitive to use.

Students apply for graduate merit-based scholarships and awards online. You will review those applications using GA3.
