How to calculate your equivalent SFU GPA

For international schools see academic requirements per country, or order your credential evaluation report and use the process below.

The grade point average (GPA) is a method of expressing the student’s performance as a numerical average. Each letter grade is assigned a numerical equivalent, which is then multiplied by the unit value assigned to the course to produce the grade point. Grades without a numerical equivalent are not included in the calculation of the grade point average.

Term grade point average (GPA) is computed by dividing the total grade points earned by the total units completed in the term to the second decimal place.

Create a table and enter your letter grades from your transcripts for the last 60 units and/or your full degree for CGPA. Assign them the correct numerical value using the table below.

A 3 unit course is a regular SFU course (about 3 hours per week in class for 13 weeks).

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Numeric Value</th>
<th>Units</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>course 1</td>
<td>A</td>
<td>4.00</td>
<td>3</td>
</tr>
<tr>
<td>course 2</td>
<td>A+</td>
<td>4.33</td>
<td>3</td>
</tr>
<tr>
<td>course 3</td>
<td>B-</td>
<td>2.67</td>
<td>3</td>
</tr>
<tr>
<td>course 4</td>
<td>C</td>
<td>2.00</td>
<td>3</td>
</tr>
<tr>
<td>course 5</td>
<td>F</td>
<td>0.00</td>
<td>4</td>
</tr>
</tbody>
</table>

Total 16 39.00

**Term grade point average: 39/16 = 2.44**

This is the full scale to use for your calculations:

- **A+ = 4.33 point (in use since 2002-3)**
- **A = 4.00 points**
- **A- = 3.67 points**
- **B+ = 3.33 points**
- **B = 3.00 points**
- **B- = 2.67 points**
- **C+ = 2.33 points (in use since 2002-3)**
- **C = 2.00 points**
- **F = 0 points**
- **N = 0 points**
