Student Responsibility: It is the responsibility of each student to be aware of Faculty regulations as stated in the Calendar. Faculty advisors and staff are available to give advice and guidance. However, the ultimate responsibility for completeness and correctness of course selection, for compliance with and completion of program and degree requirements and for observance of regulations and deadlines rests with the student.

Program Requirements

For the Bachelor of Science (BSc) Health Sciences program, students complete 120 units, which includes:

- at least 45 upper division units
- at least 60 units that must be completed at Simon Fraser University
- satisfaction of the writing, quantitative, and breadth (WQB) requirements
- an overall cumulative grade point average (CGPA), upper division CGPA, and program (HSCI) GPA of at least 2.0
- a minimum grade of C- in all WQB, lower division and upper division course requirements

(Courses required to satisfy prerequisites for MBB will require a minimum grade of a C. These courses include BISC 202, MBB 222 and MBB 231.

Designated and undesignated breadth units must be outside the student’s major (not HSCI):

- 6 Social Science Breadth Units (B-Soc)
- 6 Humanities Breadth Units (B-Hum)
- 6 Science Breadth Units (B-Sci)
- 6 Undesignated Breadth Units

It is recommended that students should take their first W and Q courses during their first 30 units, with the goal of completing them within their first 60 units. The second required W course must be an upper-division course. Breadth courses have to be outside your major (i.e. not HSCI). A course may count as Q and B, or W and B, or W and Q, or W, Q and B. If a course has multiple B designations, students must decide which designation of a course to use in order to fulfill their requirements.
