Program Requirements

For the Bachelor of Science (BSc) Health Sciences program, students complete 120 units, which includes:

- at least 45 upper division units
- at least 60 units that must be completed at Simon Fraser University
- satisfaction of the writing, quantitative, and breadth (WQB) requirements
- an overall cumulative grade point average (CGPA), upper division CGPA, and program (HSCI) GPA of at least 2.0
- a minimum grade of C- in all WQB, lower division and upper division course requirements

(Courses required to satisfy prerequisites for MBB will require a minimum grade of C. These courses include BISC 202, MBB 222 and MBB 231.)

Designated and undesignated breadth units must be outside the student’s major (not HSCI):

- 6 Social Science Breadth Units (B-Soc)
- 6 Humanities Breadth Units (B-Hum)
- 6 Science Breadth Units (B-Sci)
- 6 Undesignated Breadth Units

It is recommended that students should take their first W and Q courses during their first 30 units, with the goal of completing them within their first 60 units. The second required W course must be an upper-division course. Breadth courses have to be outside your major (i.e. not HSCI). A course may count as Q and B, or W and B, or W and Q, or W, Q and B. If a course has multiple B designations, students must decide which designation of a course to use in order to fulfill their requirements.
