The following external awards or grants represent research funding proposals or contracts that have been awarded and/or approved between April 1, 2006 - March 31, 2007 according to SFU's grant tracking system. Multi-year funding awarded before April 1, 2006 but received by SFU in 2006-07 is noted(*). Awards and grants are listed in alphabetical order according to faculty members' name. This list includes only funding awards with FHS faculty members as principal investigators - co-investigator awards are not included.

| Project Title | Grant—Mental Health and Addictions  
Pl: Elliot Goldner  
Agency: CIHR  
Duration: 6 years *awarded in 2003  
Amount: $310,500 per yr (to 2008-09) |
|---|---|
| Project Title | Mental Health & Addiction Services Policy Investigative Team  
Pl: Elliot Goldner  
Agency: MSFHR  
Duration: 3 years *awarded in 2005  
Amount: $124,250 |
| Project Title | A framework for evaluation of mental health initiatives  
Pl: Elliot Goldner  
Agency: Alberta Mental Health Board  
Duration: 1 year  
Amount: $67,100 |
| Project Title | Spatial dynamics of risk and vulnerability in a transitional pastoral economy (subgrant, Univ. of Colorado)  
Pl: Craig Janes  
Agency: National Science Foundation  
Duration: 2 year  
Amount: US$28,016/yr |
| Project Title | IRMACS Project  
Pl: Michael Hayes  
Agency: BC Min. of Health  
Duration: 1 year  
Amount: $150,000 |
| Project Title | Impact of ART care on the health & wellbeing of persons with AIDS  
Pl: Robert Hogg  
Agency: CHIR—RFA  
Duration: 3 years  
Amount: $160,475/yr |
| Project Title | Understanding community capacity in mental health reform— an examination of the gendered dimensions of the Riverview redevelopment process in BC  
Pl: Marina Morrow  
Agency: SSHRC  
Duration: 3 years  
Amount: $61,109/yr |

Project Title: Community Investments
Divisional Grant for Tele-health Research
PI: Julian Somers
Agency: Telus
Duration: 1 year Amount: $94,647

Project Title: Vancouver community
standardized output indicators
PI: Julian Somers
Agency: Vancouver Coastal Health
Authority
Duration: 2 years Amount: $51,500/yr

Project Title: Transitional and supportive
housing: outcome measurement
PI: Julian Somers
Agency: BC Min. of Forests
Duration: 2 years Amount: $50,000/yr

Project Title: Listening to adolescent
experiences of eating, dieting and other
weight-focused behaviours: a voice centred
analysis
PI: Rochelle Tucker
Agency: SSHRC
Duration: 3 years Amount: $42,333/yr

Project Title: Monitoring the mental health of
children in BC
PI: Charlotte Waddell
Agency: Human Early Learning Partnership
subgrant
Duration: 2 years Amount: $20,000/yr

Project Title: Integrating research evidence
into policy and practice:
PI: Charlotte Waddell
Agency: Ministry of Children and Family
Development
Duration: 5 years Amount: $310,080/yr

Project Title: Policy research partnership
PI: Charlotte Waddell
Agency: Ministry of Children and Family
Development
Duration: 3 years Amount: $613,924/yr

Project Title: Children’s mental health
monitoring
PI: Charlotte Waddell
Agency: Ministry of Children and Family
Development
Duration: 1 year Amount: $60,000

Project Title: Autism policy research
PI: Charlotte Waddell
Agency: CIHR-McMaster University sub-
grant
Duration: 5 years* awarded in 2004
Amount: $37,675/year (to 2009)

Project Title: Children’s mental health: Linking
research evidence and policy making
PI: Charlotte Waddell
Agency: MSFHR Career Award—Scholar
Duration: 5 years * awarded in 2002
Amount: $119,472 (to 2007)

Project Title: Challenges in translational
analysis of longitudinal data
PI: Lei Lei Zeng
Agency: NSERC—University Faculty Award
Duration: 5 years Amount: $40,000/yr

Project Title: Challenges in translational
analysis of longitudinal data
PI: Lei Lei Zeng
Agency: NSERC Discovery Grants
Duration: 3 years Amount: $15,000/yr

On the Horizon for 2007- 2008…..

Canada Research Chair in Children’s Health Policy for FHS
NEW! - FHS congratulates Dr. Charlotte Waddell who has been awarded a Tier 2
Canada Research Chair in Children’s Health Policy. As a research chair, Dr.
Waddell will be leading a 5-year program of research that examines research use
in policy making and the uptake of population health ideas among Canadian
policy makers in the area of children’s mental health. Dr. Waddell’s research will
also involve significant knowledge transfer. As part of her research, she will be
developing evidence-based policy options to improve children’s mental health
outcomes among low SES families, and indicators and models to evaluate the
impact of policy on children’s mental health outcomes.

SFU’s Population Health Data Warehouse Update:
NEW! - The Data Warehouse initiative’s partnership with UBC’s Population
Health Learning Observatory (PI: Clyde Hertzman) and Centre for Community
Health Care Innovation and Improvement (PI: Ying McNab), and UVIC’s

(Continued on page 3)
Faculty of Social Sciences (co-PI: Peter Keller) for the grant proposal, *Population Data Access and Analysis Platform*, was recently awarded conditional funding to the amount of $500,000 per year for two years, pending satisfactory response to the issues raised by the Review Panel.

**NEW!** - Data warehouse staff are preparing a proposal for a *Statistics Canada Research Data Centre (RDC) at SFU*; the proposed Centre would be located within FHS’ new ASSC II building. RDCs contain a wealth of population survey data such as the Canadian Community Health Survey. It has often been remarked that the existing RDC, at UBC, is not readily accessible to SFU researchers. An RDC located at SFU would complement the university’s and FHS’s research capacity. Currently, the Data Warehouse provides researchers with access to BC Min. of Health Vital Statistics Agency data on vital events (1985–present).

Did you know…?

**Statistical Consulting Services (SCS) Available for Grant Development:**
Since 1980, SFU’s Dept. of Statistics and Actuarial Science has operated a consulting service to promote linkages between academic statisticians and applied researchers. This unit employs a full-time director and all SFU statistical faculty contribute to the SCS. **SCS services include:** 1) Design of experiments or surveys; 2) Determination of sample size; 3) Software recommendations for statistical analysis; 4) Advice on graphical data summaries; 5) Recommendations for inferential techniques when appropriate; 6) Assessment of study protocols in grant applications; 7) Advice on quality assurance and reliability methods; 8) Provision of short courses.

**SCS Costs:** Task assessment, advice and minor assistance are free; work resulting in co-authorship is also usually free. Major assistance is charged at competitive rates. For more detailed information on costs, call (604) 291-4670. [http://www.stat.sfu.ca/people/consulting](http://www.stat.sfu.ca/people/consulting)

**SSHRC and NSERC Converting to Canadian Common CV System:**

In March 2007, the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council (NSERC), the Social Sciences and Humanities Research Council (SSHRC) and Quebec’s three research funding agencies (Fonds de la recherche en santé du Québec, Fonds québécois de la recherche sur la nature et les technologies, et Fonds québécois de la recherche sur la société et la culture) have signed an agreement to extend the reach of the Canadian Common CV for researchers across the spectrum of research including the natural, social and health sciences, engineering and the humanities. The Common CV Network is a collaborative effort between Canadian research granting agencies and other organizations to create, offer and manage a Canadian Common CV (CCV) for researchers, students, and research organizations, under appropriate informed consent, privacy and security regulations.
Upcoming Funding Deadlines: For full details or assistance with any of the following funding opportunities, please contact Cecilia Kalaw, FHS Grants Facilitator ckalaw@sfu.ca (604-268-7037).
