"IMAGES - Kootenay Women's Paper: A Primer on Feminism (1973-1991)."
An illustrated presentation by Dr. Marcia Braundy.

The West Kootenay area of British Columbia was a veritable hotbed of feminist activism when in the 70’s a new wave of strong women gave birth to a movement out of which came a wealth of creative and imaginative endeavors. Nineteen years and 85 issues of IMAGES - Kootenay Women's Newspaper represents the early writings of many of British Columbia's prize-winning women authors and artists as they struggled to develop their personal and political perspectives on Second Wave Feminism. It documents the struggles for effective and satisfying economic, social and political lives for women in rural BC, and links arms and words with women from around the world, telling their stories along with our own. Theme issues address the major challenges of our times: Aging, Health, Machinery, Sexuality, Reproductive Rights, Working, Lesbian life, Mothers and Daughters, The Arts, Media, Feminism, Technology, Violence Against Women, Travel and Relationships.

Dr. Marcia Braundy is a founder and member of the original IMAGES collective, and Editor of the CD, IMAGES, Kootenay Women's Paper (1973-1991) A Primer on Feminism.

Please note that we have the entire cafe for this evening's event ... so come early and join us for dinner!

** WERE YOU THERE??? A Special Invitation to all those who were part of the 1960's-80's Feminist Movement in BC, (or anywhere else).**
