MEMORANDUM

SM 4/4/66

Information Report to Senate

From D. P. Robertson, Registrar

Grad. Studies

Subject Graduate Calendar

Date March 28, 1966.

It had been decided some months ago to issue a separate Calendar for Graduate Studies in order not to hold up the publication of the Undergraduate Calendar.

We still have not been able to establish University regulations governing graduate studies; each faculty has been studying the matter but the separate faculty recommendations should then be studied by the proposed Senate Committee on Graduate studies, before a University policy is recommended to Senate.

As it appears the general regulations are a few months from realization, and as most of the graduate student recruiting has been completed, and as each department has all its own graduate information gathered together in written form, the consensus of the Heads is that we should not attempt to rush a Calendar right now, but continue working towards one for publication in the fall.
